Population in custody June 2009 – Key points

Population in custody

The population in custody on 30 June 2009 was 83,900, a rise of 220 from a year earlier.
 The population in prisons was 83,500 rise of 260 from a year earlier), in Secure Training Centres (STCs) it was 260 and in Secure Children's Homes (SCHs) it was 180.

Population in prison

- The male prison population increased by 1 per cent (up 470) to 79,200 and the female prison population decreased 5 per cent (down 210) to 4,300 in June 2009 compared to June 2008.
- The remand population in prison hardly changed between June 2008 and June 2009. However within this total, the untried population increased 2 per cent (up 180) to 8,900 and the convicted unsentenced population went down 4 per cent (down 170), to 4,500.
- Amongst the remand population the changes since June 2008 by offence group were all less than 100 apart from theft and handling which dropped by 12 per cent (down 120).
- There were 68,400 sentenced¹ prisoners at 30 June 2009, up 250 from a year earlier. There were increases for longer sentences and decreases for shorter sentences. Those serving indeterminate sentences (Life sentences and Indeterminate sentences for Public Protection) which increased by 10 per cent (up 1,100), those serving sentences of 1 year to less than 4 years increased by 1 per cent (up 150) and those serving determinate sentences of 4 years or more also increased by 1 per cent (up 130). Those serving a sentence of less than or equal to 6 months fell by 13 per cent (down 760), and greater than 6 and less than 12 months fell by 14 per cent (down 400). The falls for sentences of less than 12 months were against a relatively high short-sentenced population a year ago.
- Amongst the sentenced¹ prison population the increases were for violence against the person (up 970, 5 per cent), sexual offences (up 360, 5 per cent) and robbery (up 320, 4 per cent) from June 2008. The largest proportionate decreases since June 2008 were in those serving sentences for motoring offences (down 230 17 per cent), theft and handling (down 450, 12 per cent), fraud and forgery (down 150, 7 per cent) and other offences (down 370, 6 per cent).
- The adult population in prison was 71,600 at 30 June 2009, an increase of 1 per cent (up 500) from a year earlier. Over the same time period the number of 15 to 17 year olds fell 17 per cent (down 430) to 2,100 and the young adult prison population increased 2 per cent (up 190) to 9,800.
- The prison population was 111 per cent of the 'In Use CNA' (74,800) at 30 June 2009.

Notes

Data sources and quality

The data presented in this brief are drawn from the prison administrative IT systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large-scale recording system. While the figures shown have been checked as far as practicable, they should be regarded as approximate and not necessarily accurate to the last whole number shown in the tables. They are fit to be used for purposes of looking at trends and for comparing the relative magnitude of components.

The prison population information has been drawn from two prison sources. The first source is the routine provision by prison establishments of records of the numbers of persons held in custody at the end of each month, broadly subdivided according to age, sex, custody type and sentence length. The records are collated and processed centrally, to produce the main estimates of the end of month population presented. The second source is the electronically held details for individual inmates such as date of birth, sex, religion, ethnic origin, custody type, offence, and reception and discharge dates and, for sentenced prisoners, sentence length. These data are collected on a central computer database and are used to produce the analyses by offence group and individual year of age. They form the basis of detailed population breakdowns, supplementing the aggregates derived from the first source, to which they are scaled for consistency. A new more detailed method of scaling this information was developed in 2004.

Because the detailed population breakdowns have been scaled and also rounded to the nearest whole number, individual components may not sum to the totals.

Unless otherwise stated, numbers in the text have been rounded for ease of reading using the following rules:

Numbers of 100,000 and over are rounded to the nearest 1,000 Numbers from 1,000 – 99,999 are rounded to the nearest 100 Numbers from 10 – 999 are rounded to the nearest 10 Numbers under 10 are unrounded.

Information on the population in STCs and SCHs has been supplied by the Youth Justice Board.

All figures are provisional pending publication of the annual Offender Management Caseload Statistics.

Definitions

Population in custody – this includes those held in prison establishments, police cells under Operation Safeguard, secure training centres (STCs) and secure children's homes (SCHs). This is a change to previous outputs (notably Prison Population Monthly Brief and

Prison Statistics England and Wales) where the reference to 'population in custody' just covered those held in prison establishments and police cells. All coverage is for England and Wales.

Population in prison – this includes those held in prisons in England and Wales, including the three removal centres of Dover, Haslar and Lindholme.

Sentenced population – this includes those sentenced to an immediate custodial sentence and fine defaulters.

Immediate custodial sentence – this does not include fine defaulters.

Adult prisoners – these are prisoners aged 21 years and over.

Young adults – these are prisoners aged 18 to 20, but including 21 year old prisoners who were aged 20 or under at conviction who have not been reclassified as part of the adult population.

Indeterminate sentences – these cover life sentences and indeterminate sentences for public protection (IPP).

¹ Young adults are those aged 18 - 20 and those 21 year olds who were aged 20 or under at conviction who have not been reclassified as part of the adult population

^{*} Indicates that one or both of the comparative numbers are less than 50 which could give rise to misleading percentage changes

June 2009 and June 2008 data are not directly comparable because some improvements have been made to the way offences are grouped which has resulted in small changes to some offence groups

Data Sources and Quality
These figures have been drawn from administrative IT systems. Care is taken when processing and analysing the returns, but the detail collected is subject to the inaccuracies inherent in any large scale recording system, and so although shown to the last individual, the figure may not be accurate to that level.
