Hi.

As a consumer of good beer, I would like to offer my strong support for option 3 in your consultation, as the one most likely to halt the apparently inexorable closure of our public houses, one of the cornerstones of British society. What a pity previous legislation, that seemed a good idea at the time, stripped breweries of their tied houses. At least the breweries had a vested interest in keeping pubs open, instead of selling them to for a quick profit.

Cllr Royce Longton  
West Berkshire Council
