Subject: CPOSA cover

As discussed. Will be going out to APACE members today

It should be noted that I am pretty sure that a similar scheme exists for Supts (paid for through force budgets) – which will fund them, for example challenging A19 decisions.

Also attached is copy of insurance cover

APA considered this in July but nothing came of it:

CPOSA Subscriptions

Members at the APA Council Meeting on 18th July raised a number of issues around CPOSA subscriptions particularly in relation to legal expenses and professional indemnity insurance. For colleagues not present at Council, the APA and APACE have met with CPOSA representatives to discuss the issues. The meeting was constructive and a number of 'next steps' have been agreed with a view to hopefully resolving the issue shortly. We are likely to be moving to a system with payment being a matter for individuals but hoping to establish some key principles around it. As soon as a way forward has been agreed with CPOSA we will update colleagues accordingly.

APA Contact Officer: [REDACTED]

The (major – headline) articles by Rob Waugh at Yorkshire post were very useful – he did a lot of work asking other professions etc and getting some MPs involved. I will try and get copy of this but prob on Yorksire Post website
