INTRODUCTION

1. Statistics of offences relating to motor vehicles for the years 1928-76 were published annually as a return to the House of Commons, and for 1977-79 as a Command paper. In later years that publication consisted of a commentary with summary historical tables and about 60 pages of detailed tables relating to the latest year. For 1980 onwards the commentary and historical tables have been published as a separate Statistical Bulletin with the more detailed annual tables being published in the companion volume 'Offences relating to motor vehicles, England and Wales, Supplementary tables'.
2. All the figures in these tables are based on a comprehensive recording procedure. However, despite the care that is taken by the police in completing the returns and by the Ministry of Justice in analysing them, the figures are of necessity subject to the inaccuracies inherent in any large-scale recording system of this kind and so the figures are not necessarily accurate to the last digit shown. The figures for some prosecutions involving minor motoring offences are likely to be less accurate.
3. This publication has been prepared by the Criminal Justice Evidence and Analysis Unit (CJEAU-OCJR, Ministry of Justice), based on data obtained from the 43 police force areas and Criminal courts within England and Wales by the Home Office Data Collection Group, Science and Research Support Group. Information on penalty charge notices was supplied by London Boroughs and other local authorities. If you have any enquiries about figures in the tables please email to: cjea@cjs.gsi.gov.uk
4. Acknowledgement is made of the contributions from John Frosztega and the staff of the Home Office Data Collection Group, Science and Research Support Group (SRGS).

APPENDIX

Coverage, recording practice and legislation affecting the tables

1. The term 'motor vehicle' in this publication means a mechanically propelled vehicle intended or adapted for use on roads, and includes motor cycles, motor scooters, mechanically propelled invalid carriages, road rollers and tractors.
2. The statistics shown are for offences dealt with by means of written warnings (including formal cautions), Vehicle Defect Registration Schemes notices, fixed penalty notices, penalty charge notices or court proceedings. Offences dealt with by an oral warning or a 'no further action' letter are not covered.
3. A person appearing in court can be dealt with for more than one offence at the same appearance. The tables show the numbers of offences or alleged offences dealt with and not the number of persons appearing in court. This method of counting differs from the principal offence basis used for tables relating to court proceedings in the Ministry of Justice Statistical Bulletin 'Criminal statistics, England and Wales, 2006' and described in Appendix 2, paragraph 13 of that publication. In some tables relating to court appearances the total number of persons involved is shown in addition to the number of offences. The 'number of persons' relates to the number of separate court appearances by a person. For example, if a person appears on one occasion in court for three motoring offences, that person would be counted only once; on the other hand, three separate court appearances by the same person for separate offences would be counted as three 'persons'.
4. Where more than one sentence or order is imposed, the tables show the principal sentence or order imposed. When a person has been dealt with for more than one motoring offence at a court appearance, the sentence or order tabulated in the 'number of persons' line is the principal sentence or order imposed for such motoring offences at that court appearance, although each of the offences will appear in the remainder of the table under the principal sentence imposed for that offence. The principal sentence or order is:
 - a) the most severe non-monetary penalty if a non-monetary penalty is one of the sentences imposed; or
 - b) the most severe monetary penalty if only monetary penalties are imposed.
5. Deferred sentences, when first imposed, are not included in the statistics; the offence is included in these tables if the final sentence was given in 2006.
6. The following cases are not included in the tables on disqualifications and endorsements:
 - a) disqualifications ordered under section 28(1) of the Road Traffic Offenders Act 1988 in respect of offences under section 25 of the Theft Act 1968 (going equipped for stealing, etc) with reference to the theft or taking of a motor vehicle.
 - b) disqualifications ordered under section 44 of the Powers of Criminal Courts Act 1973 which empowers the Crown Court to order an offender who used a vehicle in the commission of an offence to be disqualified from driving;

- c) licences suspended pending their production in court (under the terms of section 27(3) of the Road Traffic Offenders Act 1988)
- d) disqualifications ordered under Section (10 of the Powers of Criminal Courts (Sentencing) Act 2000 – the court by or before which a person is convicted of any offence committed after 31 December 1997, may instead of or in addition to dealing with him in any other way, order him to be disqualified, for such a period as it thinks fit from holding or obtaining a driving licence.

7. Tables relating to written warnings give the number of offences so dealt with; a written warning may cover more than one offence. In these tables the 'number of persons' refers to the number of separate occasions on which a person received written warnings. Tables relating to fixed penalty notices and VDRS notices give the number of notices issued, but a VDRS notice can cover more than one defect.

8. Changes in legislation which have affected the statistics are listed in the Notes section of the Ministry of Justice Statistical Bulletin 'Motoring Offences and Breath Test Statistics, England and Wales 2006', of which this is the companion volume.

9. Figures on the results of Fixed Penalty Notices, (Tables 21(a) and 21 (b)), are not yet available for 2006 and will be included in the publication for 2007. This publication, however, includes such information for 2005.

Quality of the statistics in this volume

10. Every effort is made to ensure that the figures presented in this volume are accurate and complete. However, it is important to note that these data have been extracted by police forces, courts and local authorities from a variety of administrative data systems and the detail supplied to CJEAU-OCJR is therefore subject to the inaccuracies inherent in any large-scale recording system. Although figures in this volume are shown to the last digit, the figures are not necessarily accurate to the last digit shown. It is important that users of the data take these limitations into account when using and interpreting the data presented in this volume.
