

Dear Lisa,

Consultation on the site selection process for a Geological Disposal Facility.

The Parish Council disagrees with the decision being made at District Council level.  
It is not thought that the District Council represents Parish Council views.

Your email dated 12<sup>th</sup> September states: *'Following our analysis of the responses to the consultation, we intend to re-launch the GDF site selection process in 2014'.*

Please confirm (1) whether you will publish details of your analysis and (2) whether you will restore the role of Parish / Local Councils back to full involvement if sufficient numbers of Parish / Local Councils express dissatisfaction at your proposal to reduce their role in the process.

Yours sincerely

Sue Silvester

Clerk to Bassenthwaite Parish Council  
In the Borough of Allerdale, Cumbria.
