Personal Information

28-November 2012.

Dear Prime Minister,

I lost my son who

passed away (died) in [redacted]
to alcoholism. It was a sad
drinks start with a few cans of
beer watching TV, he lost his job
in 2010. After working 25 years with

the company,

[redacted] bought his home

[redacted] to close relatives

and friends then onto drink.

It started soon driving by
2010. Next ~~week~~ ^{day}

next ~~week~~ next vodka I lived
with him from January 2012 we
diluted vodka with 1/2 bottle of vodka.

1 1/2 bottle diet lemonade, a bottle
of vodka or two every 24 hours.

Then also by social workers and doctors
telling me not to pick him up if he
falls but to call for ambulance

We had over 20 visits by ambulance
to A&E. His pain alone.

I feel terrible guilt for the

amount of time taking up my

doctor, nurses, district nurses, S.P.

doctor and social workers

I agree either they should be made

to pay for alcohol related illness or
put the price of super market alcohol up.

I thank you for an increase in
the price of alcohol, so its a
drawn on society taking doctors
and nursing steps away from
more pressing illness.

Yours Sincerely

Prime Minister's Office
