Subject: European revision of Tobacco Products Directive
Attachments: 2013-02-21 - Imperial Tobacco Comments to UK DH regarding EUTPD v2.doc

Please find attached our latest document outlining our concerns over this proposal from the Commission that is now under discussion in Council working group and with the European Parliament ENVI Committee taking lead.

We would be happy to come to London and explain our concerns in more detail.

For HM Treasury and Dept. of BIS we highlight the conflict raised under Track and Trace whereby we and the other major tobacco companies have signed legal agreements with payments attached till 2030 and question if this Directive would supersede that or who in the Commission has responsibility for this OLAF or DG SANCO? Copy of OLAF agreement included in attached document.
