## Aims and Scope

*Obesity Reviews* is a review journal publishing papers from all disciplines related to obesity. It should, therefore, appeal to all professionals with an interest in obesity, most particularly to endocrinologists, cardiologists, gastroenterologists, obstetricians but also rheumatologists, as well as health professionals working in general medicine and surgery. Furthermore, the journal will contribute to education and interprofessional developments by planning *pro et con* reviews on current controversies.

*Obesity Reviews* is an official review journal of the International Association for the Study of Obesity, which has over 7,000 members, in 38 countries, with a rapidly increasing membership status.

A special subscription rate is available for individuals who are members of the national associations under the umbrella of the International Association for the Study of Obesity.

The journal is published on a bimonthly basis. The Editorial policy will be to minimise the period between submission and publication of reviews, while retaining high standards of quality exercised by peer review.

## Abstracting and Indexing Services

The Journal is included in the information retrieval systems Index Medicus and Medline.
