Rt Hon Dr. Vince Cable
Secretary of State for Business
Dept for Business
1 Victoria Street
LONDON SW1H 0ET

Dear Dr. Cable,

Re: Government Consultation Pub Companies and Tenants April 2013.

Dunn Building & Joinery are a small company employing 10 local tradesmen. We have carried out works for the last 35 years, specifically within the Licensed House Trade at managed, leased and tenant properties for most of the major Breweries and Pub companies. In the last 15 years a of our turnover has been with Punch Taverns who I must say are one of the best clients we currently have.

During that time we have noticed a drive by Punch to greatly increase the standard of their properties, both prior to new occupants and during existing occupancies.

At this time I would estimate . % of our turnover is with Punch and if they were made to downsize and reduce their various property improvement processes our prospect of maintaining or improving our current staffing levels will take a turn for the worst in the current general climate. I feel sure this would result in redundancies.

I would like to think Government is looking at various business models with a view to improving them but feel at this time the industry itself is moving forward and government intervention would only be a bad thing for the industry and all the associated industries and jobs which it supports.

Yours faithfully
DUNN BUILDING & JOINERY LTD
