To: Obe, Nicholas (ERG-ALE);

Subject: Inclusion in the TNP

Importance: High

Dear Nicholas

I wish to formally declare that Arjowiggins Fine Papers Ltd wishes to be included within the TNP.

The following details are supplied as requested.

Operating Company: Arjowiggins Fine Papers Ltd

Plant Name: Stoneywood Mill

Plant Address: Stoneywood Mill

Bucksburn

Aberdeen

AB21 9AB

Date of first permit: Pre 2001

Rated thermal input as of 31st December 2012: Over 50MWth

Would you please send me confirmation when we are registered.

Best Regards

Environment Manager

Subject RE: Further Info

At the very least, we need:

Operating company
Plant name
Plant address (including post code)
Date of its first permit
The rated thermal input of the plant as it will be at 31 December 2012

Good Morning Vincent

I understand that you spoke last week with Brian Bateman with regards to our initial inclusion within the TNP. He has said that you are prepared to accept a simple letter from us stating that we wish to be included within the scheme.

Would you please indicate what information you would require in the letter and if this is acceptable.

Our position at this instance is that we are looking very seriously at building a bio-mass plant on site which would make this all unnecessary however in the off chance that it did not go ahead then we would need to be included in this.

Best Regards

Environment Manager

Dear,

Thanks for sending your plant details for inclusion in the TNP. It is not immediately obvious whether you have fully completed the spreadsheet that Richard Vincent sent along with the TNP letter. If you have not fully completed it, would you be able to do so early next week ensuring that all parts relevant parts of the template are completed? I attach the guidance for completing the form which was developed by Energy UK.

Subject RE: Further Info

I attach the letter which went out to a wide range of contacts last Christmas. I'm sorry it appears to have missed you. However, if it meets the criteria, the plant can still be placed in the draft plan. Please provide the information sought in the letter as soon as you can: if you have any difficulty with any of it, your local SEPA contacts may be able to help. And you may find the attached spreadsheet helpful – this was produced by AEP (now part of Energy UK) for use by power station operators.

Subject: Further Info

Hi Richard

We have been contacted by SEPA with regards to the TNP as we operate a plant with over 50 MWth and usage of one output. It would appear that the date of end of May has passed however we were under the impression that it was August. In any event it has been said that if we wanted we still could join the scheme?

Before we do we have to seek further advice Richard however its likely we would like to. Can you please indicate firstly time scales and secondly how we would go about joining?

I after today will be on holiday for 2 weeks so in-between that time please would you contact our Engineering Manager

I will be available up to 4.30 to discuss this by phone if convenient.

Regards

Environment Manager
