3rd May 2012

Dear Richard

INDUSTRIAL EMISSIONS DIRECTIVE – LARGE COMBUSTION PLANTS

I am writing to confirm that British Sugar wishes to participate in the proposed UK Transitional National Plan (TNP) for Large Combustion Plants, as detailed in your letter of 28th December 2011, at the following sites:

Newark Sugar Factory (NERP Plant 73)
Wissington Sugar Factory (NERP Plant 69)

I enclose printouts of the calculated emissions ceilings for each of these sites.

It is our current intention that at the end of the period of operation of the TNP, that both sites will have undertaken the necessary "refurbishment" works in order to fully comply with the relevant emission limit values applicable at that time.

Yours sincerely

Company Environmental Manager
