

Ms

I should also have asked you, or any of your colleagues, to provide a short statement of what measures are foreseen to bring each of the Sullom Voe plants and also the plant at Kinneil into compliance with the appropriate LCP ELVs when the TNP finishes in June 2010.

RJV

Ms

Thank you for the information you have provided. However, I also need your calculation of the emission ceilings and I must have that by close tomorrow, **Thursday 13 December**.

On the question of the dual applications for TNP and SIS, I am content to pursue both for now (subject to receipt of the emissions ceilings calculations), but the company will need to make a decision between the two before the TNP is finalised after its evaluation by the European Commission.

Subject: Sullom Voe Terminal: LCPs to be placed in UK TNP

Importance: High

Dear Mr Vincent

Following your correspondence with ... please find attached the final information you require to process the Sullom Voe Terminal application for the UK TNP.

To clarify – we have applied for IED derogation both as a (i) small isolated system (SIS) and (ii) the transitional national plan (TNP) and would welcome any comments you may have on this dual application.

Kind regards

Environmental Advisor : Regulatory Compliance & Environment

Your reference No. **2011_4122456**

Dear Mr ,

Further to your email to Richard Vincent, below, we are in the process of analysing data supplied for the TNP. In addition to the information you kindly provided attached we also require all the information listed in its section (2) of the attached document. From that, we need the information necessary to complete Tables A.1, B.1, B.2 and B.3 as set out in Appendix A of the attached. We need this information by 7 December.

Many thanks and kind regards
Defra

Richard,

Please find attached a copy of a letter that has been posted to you today regarding Large Combustion Plants that we operate at our Kinneil and Sullom Voe Terminals that we wish to be placed in the draft UK Transitional National Plan.
