Dear Mr McCabe,

I am writing to you following the recent BIS proposal and what I believe to be a misrepresentation of lease and tenanted pub companies. As an employee of Enterprise Inns I am confident that we work closely with our Publicans and offer excellent support to them. I am extremely concerned that the details in the proposal would have a high knock on effect, resulting in more pubs closing, Enterprise not being able to support Publicans in the way that we currently do and ultimately resulting in the threat of job losses to a large number of staff, several hundred of which are based at Head Office in Solihull.

As a company I believe we are fair and do our utmost to help our Publicans with their businesses, guide and support them along their journey with us. Enterprise follow strict processes to ensure that we adhere to the Industry Framework Code of Practice. Please advise what action you will be taking to ensure that pubs and pub companies will be treated fairly.

Yours Sincerely,
