Cc: Enquiry Enquiry (Other Government Departments)
Subject: Consultation Process

I write to you as a constituent, and as an employee for years with the Pub Company, Enterprise Inns.

You will be aware that for years the leased and tenanted model has been the subject of numerous enquiries and investigations. I believe the leased and tenanted model offers a fantastic low cost entry into running your own pub business and we actively support our Publicans throughout their lease/tenancy. It has been expressed that Publicans pay more for their beer however our Publicans pay a lower rent for their business. The level of support that the leased and tenanted industry provides for its publicans would, I believe, effectively be removed in the BIS proposals.

We do not want to see more closed pubs and job losses.

Regards
