I am writing to you as a [redacted] at Enterprise Inns. I am very passionate about our industry and feel strongly about how unfair certain parties are towards my company. I can honestly say that everyone I work with employed by Enterprise Inns, does everything they can to help the Publicans at every stage. Everything we do on a daily basis is geared towards working together in partnership with Publicans, if they fail we fail, so why should we make it more difficult for them. I believe there are discussions in Parliament very shortly, and the outcome from this could impact a great deal on hard working colleagues and customers that do work with us.

The Company offers a lot of support, however very little of this positive activity is reported on. From a personal basis I love dealing with Publicans and I encourage my team on a daily basis to do everything they can to help them. Every day has its challenges, however my role is to offer the best service possible at all times.

I do hope that all aspects of our Industry are investigated and are not just based on the accusations of the minority that simply shout the loudest. I am very concerned that if this decision goes against us that it would have a massive impact on the local community, and could mean fewer local jobs, not only for Enterprise but also for our tenants.

Best regards
