Hi [REDACTED]

Thank you for dropping off the petition last Friday. Everything in the box made sense and was safely received.

We have received all of the extra emails you describe below.

Many thanks

Subject Our numbers

Hi [REDACTED]

Thanks again for helping us to arrange the hand in on Friday, I hope everything in the box made sense.

I just wanted to flag up a small amendment to the numbers of hard copy petitions submitted, due to a minor miscalculation in our spreadsheet. In the covering letter we enclosed we said that the numbers were:

Previously submitted paper petition signatures: 23045  
Paper petition signatures submitted on the day: 886

These were slightly inaccurate, the numbers actually were:

Previously submitted petition signatures: 23166  
Paper petition signatures submitted on the day: 866.

According to our records, in the time between us preparing the memory stick of data and the closing of the consultation, an additional 845 people emailed the DH email address directly to show their support. Please can you confirm if these emails got through? The subject line was "Cancer Research UK's campaign for plain packaging of tobacco".

Best wishes,

**Senior Campaigning Officer**
