I remain uncertain of SSI's intentions as regards participation in the UK Transitional National Plan. If there is any possibility that you wish to place combustion plant in it, I need to be able to complete tables A.1, B.1, B.2 and B.3 as shown in the attached European Commission document. Appendices C and D of that document set out the ELVs which need to be used.

I also attach a template which some operators have used to produce their input.

I need your input, or alternatively a statement that SSI does not wish to place any plant in the TNP, by this Friday, **7 December**.
