

Richard

apologies for not getting this to you sooner

In response to your request both Burghfield & Chickerell where issued with a Environmental Emissions Permit (EA IPC) from late 1997.

permit reference numbers where:-

Burghfield - AY7127

Chickerell - AY7097.

These then superseded by PPC in Nov 2006 by the following permit ref numbers:-

Burghfield - ZP3130LJ

Chickerell - FP3230LM

The RTI for Smurfitt is approximately 135MWth.

yours

If, as appears to be the case, Burghfield and Chickerall were not put into operation until 2006, they do **NOT** qualify for inclusion in the TNP. Article 32 of the industrial emissions Directive plainly states that the option is available only for those plants which were permitted before 27 November 2002 or for which a permit application had been made by that date provided the plant was put into operation by 27 November 2003.

Please, therefore, confirm **as a matter of urgency** when the plants were put into service.

There is **still** no RTI on the Smurfit spreadsheet – please supply that urgently.

David

Please find attached the information that you requested.

For the Burghfield Generation Site we seem to be lacking a location post code and date of the first permit. Would you be able to provide that? _____ **Postcode**

PPC issue date	Rated Thermal Input as of 31/12/2012
RG30 3UW	134 MWht

For the Chickerall Generation Site we also don't have a location post code and date of the first permit. Additionally could we confirm what the rate of thermal input at 31 December

2012 is	Postcode	PPC issue date	Rated Thermal Input as of
<u>31/12/2012</u>			
	DT4 9XJ	30/11/2006	134 MWht

For Fiddler's Ferry Power Station we don't appear to have the RTI figure? **RTI is 5590 MW**

For Keadby Power Station GT3 again we are missing the RTI and also the date of the first permit. **RTI is 75MW .Date of First Permit 01 May 1998**

Finally for Smurfit CHP and Weston Point CHP we are also missing the RTI and first permit date **Smurfit RTI is Permit date Sept 1998, Weston Point RTI 231MW is Sept 1998**

I have attached the updated spreadsheets below

 Subject: RE: SSE TNP data

Sorry -- its the Rated Thermal Input as of 31 December 2012. Richard paraphrases it as RTI at 31 December 2012 (MWth).

Richard does seem to have the dates of first permits of the other SSE sites so they must have been somewhere in the spreadsheet. So the information is only missing for the sites mentioned below

Hope that helps
David

Hi David

Sorry for silly question, but could you please clarify what RTI means?

Also in the spreadsheets we attached in our submission, we did not provide the dates of first permit.
Do you require this information for all the sites?

Regards

Subject: SSE TNP data

Dear,

Very sorry to trouble you but Richard Vincent has been working on the TNP data we received some months ago and he has asked me to clarify a few points on his behalf. I wonder if you can assist?

For the Burghfield Generation Site we seem to be lacking a location post code and date of the first permit. Would you be able to provide that?

For the Chickerall Generation Site we also don't have a location post code and date of the first permit. Additionally could we confirm what the rate of thermal input at 31 December 2012 is?

For Fiddler's Ferry Power Station we don't appear to have the RTI figure?

For Keadby Power Station GT3 again we are missing the RTI and also the date of the first permit.

Finally for Smurfit CHP and Weston Point CHP we are also missing the RTI and first permit date

Would you be able to provide this information by 7 December at the latest ? Sorry for the short timescale

Kind regards

David
