About this manual

Background

- 1 From 2010/11 the Subsidy Guidance Manual changed to a different format to previous editions.
- 2 In the past each edition was written for a specific year. This edition is generic and can be used for any year from 2010/11 until further notice and within this manual 'the relevant year' means the year for which subsidy is being claimed.
- 3 Some parts of the manual do refer to a specific year, for example, Appendix A, and this is noted.
- 4 In the future the only parts of the manual that will be updated will be those where there has been a change in policy or there is a need to refer to a specific year.
- 5 Amended pages/sections will be issued each year as appropriate, to make sure that the information in the manual is kept up-to-date for future years' claims. As this information is central to the correct completion of final subsidy claims, the amendments should be incorporated in the manual as a matter of urgency.
- 6 The Subsidy Guidance Manual amendments will be
 - issued to local authorities by email only
 - available on the DWP website at <http://www.dwp.gov.uk/local-authority-staff/housing-benefit/performance-and-good-practice/subsidy-guidance-manuals/>

Cross references
