# Population in custody March 2010: Key points

### Resumption of Publication/Use of new data source/new subcategories of data

- The monthly population in custody bulletin was last released on 31 July 2009 after which
  it was withdrawn due to technical problems relating to the supply of data for statistical
  purposes. This bulletin marks the resumption of the series as announced on the Ministry
  of Justice website www.justice.gov.uk/publications/populationincustody.htm
- Following the resolution of these technical problems, figures in this bulletin are now based on a new data source and are consistent with the published weekly prison figures. In order to provide a consistent comparison, data for 2009 has also been taken from the new data source, which means that these figures will not match the monthly 2009 data published previously. The total prison population given for March 2009 is 56 higher than the figure previously published.
- There are two changes to the presentation of the data. Firstly, the numbers in each sentence length band now exclude recalls which are shown as a separate subgroup within the total sentenced population (previously recalls were included in the relevant sentence length bands). Secondly, the sentenced population groups "less than or equal to 6 months" and "Greater than 6 months to less than 12 months" have been slightly revised to "less than 6 months" and "Greater than or equal to 6 months to less than 12 months" respectively as a result of using the new data source.

#### Population in custody

 The population in custody on 31 March 2010 was 85,600, a rise of 2,200 from a year earlier. The population in prisons was 85,200 (a rise of 2,200 from a year earlier), in Secure Training Centres (STCs) it was 270 and in Secure Children's Homes (SCHs) it was 160.

#### Population in prison

- The male prison population increased by 3 per cent (up 2,200) to 80,900 and the female prison population fell slightly (down 6) to 4,300 in March 2010 compared to March 2009.
- It was expected that the ending of the early release scheme would add between 1,000 and 1,200 to the daily prison population.
- The remand population in prison fell slightly from 12,800 in March 2009 to 12,600 in March 2010 (down 150). Within this total, the untried population fell 5 per cent (down 450) to 7,800 and the convicted unsentenced population rose 7 per cent (up 300), to 4,800.
- Amongst the remand population the largest changes since March 2009 by offence group were for drug offences (up 170, 10 per cent), theft and handling (up 70, 8 per cent) and sexual offences (up 50, 5 per cent). The largest proportionate falls since March 2009 were seen in those serving sentences for motoring offences (down 20, 23 per cent), fraud and forgery (down 70, 13 per cent) and burglary offences (down 190, 12 per cent).

- There were 71,200 sentenced¹ prisoners at 31 March 2010, up 2,800 from a year earlier. Those serving indeterminate sentences (Life sentences and IPPs) increased by 8 per cent (up 900) and those serving sentences of 4 years or more increased by 6 per cent (up 1,300). There was a fall for those serving a sentence equal to and greater than 6 months and less than 12 (down 110, 3 per cent). However, the number of prisoners serving a sentence of less than 6 months rose 12 per cent between March 2009 and March 2010 (up 520).
- There were 5,500 recall prisoners at 31 March 2010, down 140 from a year earlier.
- Amongst the sentenced prison population the largest increases were for other offences (up 1,000, 16 per cent), sexual offences (up 1,200, 15 per cent) and theft and handling (up 480 15 per cent) from March 2009. The largest proportionate decreases since March 2009 were for those serving sentences for motoring offences (down 180, 16 per cent), fraud and forgery (down 330, 16 per cent) and where offence was not recorded (down 400, 26 per cent).
- The adult population in prison was 73,600 at 31 March 2010, an increase of 3 per cent (up 2,300) from a year earlier. Over the same time period the number of 15 to 17 year olds fell 20 per cent (down 440) to 1,720 and the young adult prison population (see definitions) increased 5 per cent (up 420) to 9,800 at 31 March 2010.
- The prison population was 111 per cent of the 'In Use CNA' (76,540) at 31 March 2010.
- On 31 March 2010, the foreign national prison population was 11,400. This includes those held under the Immigration Act 1971 (including those in the immigration removal centres Dover, Haslar and Lindholme) as well as those held on remand or serving custodial sentences.
- The largest foreign national population at 31 March 2010 were Jamaican nationals, with a population of 960 followed by Nigeria (730), Republic of Ireland (680), Vietnam (590), Poland (670), Somalia (450), and China (430).

<sup>&</sup>lt;sup>1</sup> Includes recalls and excludes fine defaulters (see Table 2)

Figure B: Immediate custodial sentenced population by offence group

## **Notes**

#### Data sources and quality

The data presented in this brief are drawn from the prison administrative IT systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large-scale recording system. While the figures shown have been checked as far as practicable, they should be regarded as approximate and not necessarily accurate to the last whole number shown in the tables. They are fit to be used for purposes of looking at trends and for comparing the relative magnitude of components.

The prison population information is now drawn from a single prison source. Although different from the source used up to June 2009, it contains the same details for individual inmates such as date of birth, sex, religion, ethnic origin, custody type, offence, and reception and discharge dates and, for sentenced prisoners, sentence length. These data are collected on a central computer database and are used to produce all the analyses in this publication.

As a different data source is now being used for this publication comparisons with data a year ago will not match with data previously published for March 2009.

Unless otherwise stated, numbers in the text have been rounded for ease of reading using the following rules:

Numbers of 100,000 and over are rounded to the nearest 1,000 Numbers from 1,000 – 99,999 are rounded to the nearest 100 Numbers from 10 – 999 are rounded to the nearest 10 Numbers under 10 are unrounded.

Information on the population in STCs and SCHs has been supplied by the Youth Justice Board.

All figures are provisional pending publication of the annual Offender Management Caseload Statistics.

#### **Definitions**

**Population in custody** – this includes those held in prison establishments, police cells under Operation Safeguard, secure training centres (STCs) and secure children's homes (SCHs). All coverage is for England and Wales.

**Population in prison** – this includes those held in prisons in England and Wales, including the three removal centres (where people are held under immigration powers prior to removal from the UK) of Dover, Haslar and Lindholme.

**Sentenced population** – this includes those sentenced to an immediate custodial sentence and fine defaulters.

Immediate custodial sentence – this does not include fine defaulters.

**Adult prisoners** – these are prisoners aged 21 years and over.

**Young adults** – these are prisoners aged 18 to 20, but including 21 year old prisoners who were aged 20 or under at conviction who have not been reclassified as part of the adult population

**Indeterminate sentences** – these cover life sentences and indeterminate sentences for public protection (IPP).

**Recalls** – these are prisoners who are returned to custody having broken the terms of their licence.

#### Contact points for further information

Current and previous editions of this publication are available for download at www.justice.gov.uk/publications/populationincustody.htm. Future reports will be published on a monthly basis. Spreadsheet files of the tables contained in this document are also available for download from this address.

Data Sources and Quality
These figures have been drawn from administrative IT systems. Care is taken when processing and analysing the returns, but the detail collected is subject to the inaccuracies inherent in any large scale recording system, and so although shown to the last individual, the figure may not be accurate to that level.
