Subject: NO to burying radioactive waste.

Dear Sirs,

I live on the beautiful coast of Cumbria, and have to live with the Sellafield group. This is enough for Cumbria and we do not want any more waste buried here, Ennerdale or elsewhere in Cumbria.

Copeland Council have got it very wrong to think we will benefit from it being buried here. the recent flooding and the unsafety of the rocks has been proved time and again. Sellafield no longer helps the community to its utmost. (??Amercian management!!!)

There is already evidence of radioactive waste on the beaches, less fish, seaweed not edible and mussels are contaminated. Enough is enough. Nuclear Power is not the power we need, already the last 50 years of rubbish cannot be disposed of safely, and what about the rubbish waste in the next 50 years?? what a heritage for our grandchildren and and others to be born, God made a perfect world and Science is gradually destroying it all.

I am just an ordinary old widow, with no perfect knowledge, but an understanding of the order of nature, which is being disrupted.

Yours faithfully,
