# Section 1.

## Introduction

1. Supply Estimates are the means by which the Government seeks from Parliament sufficient funds and parliamentary authority for the bulk of departmental expenditure each year. A full description of Supply Estimates was included in the Main Supply Estimates (*HC 479*) presented to Parliament on 21 April 2008.

### Supplementary, New and Revised Estimates

2. In the course of the year, the Government may need to ask Parliament for additional resources and/or cash. Accordingly, there are usually three occasions for presenting Supplementary Estimates to the House of Commons: in June (summer), November (winter) and February (spring). Revised Estimates may also be presented in the summer round to replace the corresponding Main Estimates before Parliament formally approves them; Revised Estimates normally reduce the amount sought in the original Estimates or vary the way in which it is spent. New Estimates may also be introduced in the course of the year and are usually presented at the same time as Supplementary Estimates.

### Out-of-Turn Supplementary Estimates

3. 'Out-of-turn' Supplementary Estimates may be presented at any time in the year when Parliament is sitting. This only occurs in exceptional circumstances, where urgent additional provision is needed at short notice and where this cannot await a normal Estimates round.

### Total Estimates to Date

4. For the current year, Main Estimates for each department were presented to Parliament on 21 April 2008 and summer Supplementary Estimates were presented on 17 June 2008.

5. The Out-of-turn Supplementary Estimate presented to Parliament in this booklet increases resources by **£1,000** to **£447,902,671,000** and cash by **£42,200,000,000** to **£472,286,603,000**.

<b>Table 1.1 Total Estimates to date</b>		<b>£ million</b>
	<b>Resources</b>	<b>Cash</b>
<b>Main Estimates</b> <i>(HC 479, 486, 487, 488)</i>	447,903	424,787
<b>Summer Supplementary Estimates</b> <i>(HC 621)</i>	–	5,300
<b>Out-of-Turn Supplementary Estimate</b> <i>(Section 2 of this booklet)</i>	–	42,200
<b>Total</b>	<b>447,903</b>	<b>472,287</b>

6. There is one Supplementary Estimate seeking changes to resource and cash and this is shown in **Table 1.3**.

**Public Expenditure: Total Managed Expenditure**

7. The main aggregate for public expenditure control is Total Managed Expenditure, which includes Departmental Expenditure Limits (DEL), for which firm three year plans were set in the 2007 Comprehensive Spending Review, and Annually Managed Expenditure (AME), which is subject to annual review as part of the Budget process. These definitions are explained in more detail in Chapter 1 and Appendix C of *Public Expenditure: Statistical Analyses 2008 (HC 489)* and in Section 2 of *Central Government Supply Estimates: 2008-09 Supplementary Budgetary Information (Cm 7359)*.

8. Most Supply expenditure is included within either DEL or AME. The main elements of DEL and AME not funded through Supply Estimates are central government expenditure funded directly from other sources (such as the National Insurance Fund), central government support for local authorities in England and Wales, the resource consumption of devolved administrations and of public corporations and non-departmental public bodies (NDPBs).

9. The net effect of the Estimates within this booklet on the main control aggregates is shown in **Table 1.2**.

<b>Table 1.2 Expenditure within the main control aggregates</b>		<b>£ million</b>
	<b>Resources</b>	<b>Capital</b>
Change in DEL	–	–
Change in Departmental AME	–	41,583
<b>Total</b>	–	<b>41,583</b>

**Departmental Expenditure Limits**

10. Individual DELs operate as limits on spending at the departmental level covering both voted and non-voted provision. An explanation of the operation of DELs and the DEL figures, capital and resource, for 2008–09 was set out in Section 2 of *Central Government Supply Estimates 2008–09 – Supplementary Budgetary Information (Cm 7359)*. The presumption is that DELs, once set, will not be changed (other than for transfer of provision between DELs, take-up of end year flexibility, etc), even if there are unexpected fluctuations in costs or other determinants of expenditure.

11. Aside from transfers, EYF take-up, etc, decisions to make substantive changes to DELs usually only arise where there has been a policy decision to make a significant change in a particular service. Changes will be announced to Parliament as soon as possible after the decision has been taken. There are no changes to DELs associated with the Estimate presented in this booklet.

**Administration Budgets**

12. Departments' administration budgets for 2008-09 were published in Table 2.3 of *Cm 7359*. The Estimate presented in this booklet does not result in any changes to administration budgets.

**Parliamentary Procedure**

13. Supplementary Estimates seek funds for expenditure in addition to that sought in previous Supply Estimates for the same financial year. They may be presented:

- (a) to seek authority, and additional resources and/or cash as necessary, for any new services;
- (b) to increase the provision for existing services;
- (c) to increase net resources if a shortfall is expected in income appropriated in aid; or
- (d) to increase appropriations in aid.

14. The House of Commons has an opportunity to debate and vote on Supplementary and, where applicable, New and Revised Estimates, following detailed examination by departmental Select Committees. The usual process is described more fully in Section 3 of *HC 479*.

15. Out-of-turn Supplementary Estimates have a slightly different process. They require their own House of Commons Resolutions and debate, and the associated Consolidated Fund Bills will be subject to the House's normal procedures.

**Format of Supplementary Estimates**

16. Each Supplementary Estimate begins with an introduction that explains why changes to existing provision are being sought. The format and organisation of Estimates is explained more fully in Section 2 of *HC 479*.

17. Part I of each Supplementary Estimate states, as necessary, the movements in amounts of resources and cash sought for the financial year. It also reproduces the "ambit", which is a formal description of all the services (not just any new services) to be financed from the Estimate.

18. Part II of the Supplementary contains three tables. The first table identifies the Sections within each Request for Resources where changes are being proposed and also shows movements in capital and cash. This is followed by a reproduction of the original Main Estimate Part II table showing the revised subhead detail including the additional provision sought for each subhead (including unchanged subheads) as a result of the Supplementary. The third table provides a reconciliation between the net resource total and the net cash requirement.

19. Part III of the Estimate shows, as necessary, any changes to the income and/or receipts that are not appropriated in aid of expenditure but are paid into the Consolidated Fund.

20. Each Supplementary Estimate is supported by a Forecast Operating Cost Statement and Notes broadly analogous to those appended to the Main Estimates, either restated or updated. Individual select committees may of course request additional department-specific explanatory information to supplement this material.

**Appropriations in Aid**

21. A Treasury Minute under the Government Resources and Accounts Act 2000 has today been laid before Parliament directing the use as appropriations in aid of such sums shown in the Estimates as would otherwise have been required to be surrendered to the Consolidated Fund. The source of all types of income to be appropriated in aid is shown in the form of a Note to each Estimate.

**Symbols** 22. For convenience the symbols used throughout departmental Estimates are reproduced below.

*Public Expenditure:*

- Φ Income which is classified as negative expenditure in Resource Budget: DEL or Capital Budget: DEL in respect of income from capital receipts including asset sales and which is, exceptionally, surrendered to the Consolidated Fund as extra receipts rather than taken on to the Estimate as appropriations in aid.
- △ Income which is classified as negative expenditure in Resource Budget: AME or Capital Budget: AME and which is, exceptionally, surrendered direct to the Consolidated Fund as extra receipts rather than taken on to the Estimate as appropriations in aid.
- Extra income which is classified as outside of budgets and is surrendered direct to the Consolidated Fund as extra receipts.

*Accounting and audit arrangements for grants in aid and certain subscriptions, etc, to international organisations:*

- ♥ The accounts of this body are audited by the Comptroller and Auditor General and presented to Parliament.
- ◆ The accounts of this body are audited by auditors appointed by the Secretary of State (or Ministers) and presented to Parliament. The books and accounts are also open to inspection by the Comptroller and Auditor General.
- ♠ The accounts of this body are audited by auditors appointed by the Secretary of State (or Ministers) and presented to Parliament.

SUPPLEMENTARY amounts required in the year ending 31 March 2009 for expenditure by HM Treasury on:

**RfR 1: Raising the rate of sustainable growth and achieving rising prosperity and a better quality of life, with economic and employment opportunities for all**

Economic, financial and related administration, including group shared services; expenses in connection with honours and dignities; expenditure of the Debt Management Office, including administration of carbon dioxide emission reduction schemes; expenditure on a pilot scheme in connection with the provision of generic financial advice; expenditure on administration of Treasury related bodies; compensation payments arising from gilt administration; cost of capital charges on the Treasury's investment in the Bank of England; payments to other government departments; costs and income related to investment in and financial assistance to financial institutions; and associated non-cash items.

**RfR 2: Cost-effective management of the supply of coins and actions to protect the integrity of coinage**

Manufacture, storage and distribution of coinage for use in the United Kingdom; actions to protect the integrity of coinage; and associated non-cash items.

**RfR3: Obtaining the best value for money from Government's commercial relationships on a sustainable basis**

Administration and other related costs of the Office of Government Commerce and OGC buying.solutions; management and disposal of surplus civil estate; costs and income from investment and loans to OGC buying.solutions; and associated non-cash items.

HM Treasury will account for this Estimate.

---

† £5,200,000,000 has been advanced from the Contingencies Fund to provide for a deficient net cash requirement in respect of payments in connection with Bradford & Bingley (£4,600,000,000) and Kaupthing and Heritable (£600,000,000). A corresponding amount is required to enable repayment to be made to the Fund. There are no implications for resources supporting services provided for in the Estimate.

## Notes to the Estimate (*continued*)

### Explanation of Accounting Officer responsibilities

In accordance with the Government Resources and Accounts Act 2000 the Treasury has made the following Accounting Officer appointments for the Requests for Resources within this Estimate.

<b>Request for Resources 1</b>	Nicholas Macpherson, Permanent Head of the Department
<b>Request for Resources 2</b>	Nicholas Macpherson, Permanent Head of the Department
<b>Request for Resources 3</b>	Nigel Smith, Chief Executive of the Office of Government Commerce

Nicholas Macpherson, as the Principal Accounting Officer (PAO) of HM Treasury has personal responsibility for the proper presentation of the department's resource accounts as prescribed in legislation, or by the Treasury, and their transmission to the Comptroller and Auditor General. The PAO as the permanent head, remains in general overall charge of HM Treasury.

The responsibilities of an Accounting Officer are set out in chapter 3 of Managing Public Money. In essence these responsibilities include a personal responsibility for the propriety and regularity of the public finances for which they are answerable; for keeping of proper accounts; for prudent and economical administration; for the avoidance of waste and extravagance; and for the efficient and effective use of all the available resources. In addition, the Accounting Officer must ensure that there is a sound system of internal control to support the achievement of the organisation's policies, aims, and objectives and should regularly review the effectiveness of that system.

In accordance with Managing Public Money requirements, the relationship between the PAO and the Additional Accounting Officer, and with their Ministers, together with their respective responsibilities, is set out in writing.

### Departmental Expenditure Limits and Administration Budgets

	Change		New DEL		£'000
	Voted	Non-voted	Voted	Non-voted	Total
Resource DEL	-	-	186,898	33,335	220,233
<i>of which: †</i>					
Administration budget	-	-	157,459	10,743	168,202
Near-cash in RDEL	-	-	177,013	44,235	221,248
Capital ††	-	-	4,800	2,221	7,021
Less Depreciation †††	-	-	-9,190	-	-9,190
<b>Total</b>	-	-	<b>182,508</b>	<b>35,556</b>	<b>218,064</b>

† The total of 'Administration budget' and 'Near-cash in Resource DEL' figures may well be greater than total resource DEL, due to the definitions overlapping.

†† Capital DEL includes items treated as resource in Estimates and accounts but which are treated as Capital DEL in budgets.

††† Depreciation, which forms part of resource DEL, is excluded from total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.
