Alcohol Strategy Consultation
4th Floor Fry
Home Office
2 Marsham Street
London
SW1P 4DF

Dear Alcohol Strategy Consultation Team,

Subject: Government Alcohol Strategy and Consultation

The misuse of alcohol is having a devastating impact across the North West of England and we see the cost this is having on our communities on a daily basis. I believe that the Government's Alcohol Strategy presents excellent opportunities to make significant progress in tackling alcohol misuse across our region and locally.

To ensure local problems are adequately considered at a national level, views have been widely gathered from local stakeholders to inform the Government's Alcohol Strategy and Consultation.

Please find attached a response from NHS Wirral to the Government Alcohol Strategy Consultation.

Yours faithfully,
