

Exercise

In your small group, start at one of the flipcharts.

Within two minutes, discuss and record what you think about the question. Once finished, move to the next flipchart. Read the question, tick the answers you agree with and add other comments.

Continue until your group has been to all flipcharts. Return to your original flipchart and distil all the comments into three bullet points/ statements (whatever is suitable) to feedback to the larger group.

The image shows three flipchart templates arranged vertically. Each template consists of a small orange square on the left, followed by four horizontal lines for writing. The first template is at the top, the second in the middle, and the third at the bottom.
