**BITESIZE HR NEWS FOR MOD CIVILIANS AND THEIR MILITARY OR CIVILIAN LINE MANAGERS**

## Managing Staff Surplus

As announced in 2013 DIB/55, a new policy for managing surplus MOD civilian staff was introduced on Monday 4 November 2013.

Only staff who are defined as 'surplus' – where the numbers/grades of staff employed are more than are needed – can be placed in the Redeployment Pool (RDP). You are now placed in the RDP on your scheduled post end date, with the aim being that you find a new post within six months.

If you need to move posts for other reasons (for example compassionate reasons) you will be a Priority Mover and no longer part of the RDP. Priority Movers will be supported by their line management chain to find an alternative post and will still have access to the Career Consultancy Service and priority status for MOD posts at the level transfer stage of the recruitment process.

Staff who were placed in the RDP **prior** to 4 November 2013 should have already received a letter telling them that they will either:

- remain in the RDP but will not move across to the new arrangements; or
- as priority movers they will move out of the RDP and be managed by the business.

The letter also explains that surplus staff who entered the RDP before 4 November will retain the same terms as when they entered the RDP with case management support as present and that the Department is looking at options to move to one RDP arrangement in the future. If you are in the RDP and you have not received your letter, you should contact your DBS RDP Case Manager.

Line Managers and individuals will have support from their management chain, HR Business Partners and DBS Civ HR in respect of these changes. The new policy and guidance is available on People Services at:

- Register Your Redeployment Preferences
- Understand Priority Movers
