Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the surrender in part of an environmental permit.

The installation boundary has been amended through this part surrender. The original installation boundary in the permit included an area of land that has never been used to carry out any site operations or directly associated activities and falls outside of the operator leased land boundary. This section of land has acted only as access to parts of the site. The section of land has been removed from the permit and the installation boundary has been amended to reflect the change.

Any changes made as a result of the part surrender are set out in the schedules.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
