**Subject:** E.ON Response: Open Letter Consultation on dates for entry into force of section H15 of the Smart Energy Code (SEC) and incorporation of the DCC Gateway Connection into the SEC.

In Response to Tim Guys open letter (16.12.14) concerning dates for entry into force of section H15 and incorporation of the DCC Gateway Connection into the SEC, we wish to record our support for such a move.

We have been requesting ability to place an order for connection to DCC for some months now and believe the steps outlined in the letter to be a positive move forward. We would like to see the barriers to this removed as soon as possible so that we can move forward with site surveys, to enable the completion and confirmation of our order for connection as soon as possible.

Should you wish to discuss anything further please contact me.

Thank you
