

## Annex B: Impact Assessment

**Impact Assessment for The Archer Academy Free School – The Arts Institute N2 0SQ & Stanley Road/Herbert Wilmot N2 8DD site.**

**Table 1**

	School name	School type	Capacity 2011/12	Attainment in 2011/12	Ofsted grade	Impact rating
1	Bishop Douglass School Finchley	Voluntary Aided School	1080 Undersubscribed by 31% surplus places	56%	Good	High - Bishop Douglass School Finchley is the closest secondary school to the proposed Free School. The school is a Roman Catholic faith school which draws pupils from a wide area and was undersubscribed for entry in 2011/12 with around half of its place unfilled. It has an existing surplus of places of 31% of total capacity. In principle it is likely to lose more pupils to the new Free School than schools further away. The secondary school aged population in Barnet is projected to increase over the next few years so any potential negative impact may be partly mitigated by an increased demand for secondary school places in the local area.
2	Christ's College Finchley	Academy Converters	965 Undersubscribed by 2% surplus places	69%	Good	Minimal - The free school is unlikely to affect the long term viability of the school
3	The Henrietta Barnett School	Voluntary Aided School	700 Fully subscribed 0% surplus places	100%	Outstanding	Minimal - The free school is unlikely to affect the long term viability of the school

4	Fortismere School	Foundation School	1655 Undersubscribed but no surplus places in Yr7	73%	Outstanding	Minimal - The free school is unlikely to affect the long term viability of the school
5	The Compton School	Academy Converters	900 Undersubscribed but no surplus places in Yr7	75%	Outstanding	Minimal - The free school is unlikely to affect the long term viability of the school
6	Wren Academy	Academy Sponsor Led	666 Oversubscribed by - 6% surplus places	No KS4 data – no pupils in year 11	Outstanding	Minimal - The free school is unlikely to affect the long term viability of the school
7	St Michael's Catholic Grammar School	Voluntary Aided School	767 Undersubscribed but no surplus places in Yr 7	100%	Outstanding	Minimal - The free school is unlikely to affect the long term viability of the school
8	Hasmonean High School	Academy Converters	1020 0% surplus places	80%	Outstanding	Minimal - The free school is unlikely to affect the long term viability of the school
9	Hendon School	Academy Converters	1230 0% surplus places	65%	Outstanding	Minimal - The free school is unlikely to affect the long term viability of the school
10	Friern Barnet School	Community School	815 Undersubscribed 2% surplus places	60%	Outstanding	Minimal - The free school is unlikely to affect the long term viability of the school
11	Alexandra Park School	Academy Converters	1330 Oversubscribed by -6% surplus places	70%	Outstanding	Minimal - The free school is unlikely to affect the long term viability of the school

12	St Mary's CofE High School	Voluntary Aided School	1221 Undersubscribed by 44% surplus places	52%	Satisfactory	<p>High - The school was undersubscribed for entry in 2011/12 with around half of its places unfilled and has an existing surplus of places of 44% of total capacity. At 1.9 miles from the proposed Free School it is slightly above the median distance travelled to secondary schools within the LA, however its attainment is well below the national average so parents may be attracted to an alternative.</p> <p>Its latest Ofsted report in 2009 noted that the school is showing improvement and has a strong head teacher with good strategies in place to achieve further improvement.</p> <p>The secondary school aged population in Barnet is projected to increase over the next few years so any potential negative impact may be partly mitigated by an increased demand for secondary school places in the local area.</p>
13	Finchley Catholic High School	Voluntary Aided School	1107 Oversubscribed by -2% surplus places	80%	Good	Minimal - The free school is unlikely to affect the long term viability of the school
14	Highgate Wood Secondary School	Community School	1465 Undersubscribed 0 surplus places in Yr 7	72%	Good	Minimal - The free school is unlikely to affect the long term viability of the school
15	Whitefield	Academy	910	57%	Good	Moderate – converted to Academy status in 2011.

	School	Converters	Undersubscribed by 12% surplus places			The school specialises in sports. Since its previous inspection, the school has shown improvement and the report noted that there had been changes to the leadership of English, mathematics and science. This school could see a moderate impact due to the number of surplus places and the fact that there are a number of outstanding schools in the area. The secondary school aged population in Barnet is projected to increase over the next few years so any potential negative impact may be mitigated by an increased demand for secondary school places in the local area.

**Table 2**

***The Archer Academy Free School – The Stanley Road/Herbert Wilmot Site N2 8DD***

	School name	School type	Capacity 2011/12	Attainment in 2011/12	Ofsted grade	Impact rating
1	St Aloysius RC College	Voluntary Aided School	954 Oversubscribed with -11% surplus places	70%	Outstanding	Minimal - The free school is unlikely to affect the long term viability of the school
2	Heartlands High School	Community School	324 0% surplus places	No KS4 data - no pupils in year 11	Good	Minimal - The free school is unlikely to affect the long term viability of the school
3	Greig City Academy	Academy Sponsor Led	1150 undersubscribed with 1% surplus places	44%	Good	Moderate – A marginally undersubscribed Church of England faith school. Parents who want a faith school are unlikely to be attracted to the new Free School so the new Free School

						should not impact on its long term viability.
