Self Assessment 2014/15 Non-Form Validation Rules

Introduction

This document outlines the rules that apply to Self Assessment XML messages that are not derived from the Tax Return itself.
This document has two sections one for each category of rules. These are:

- **Submission Rules** that relate to the structure required to submit the XML to HMRC and provide the information needed to make successful submissions for SA.

- **Online Validation Rules** that document the rules that fall outside of the Rules and Interface Management machine readable rules for SA.

Changes from 2013/14 – 05/01/15
