

East London Arts & Music Academy (ELAM) - Impact Assessment:

Impact on Local Colleges, Further Education Institutes and 16-19 providers					
School name	School type	Capacity	Attainment in 2012/13 at Level 3 (Average points score per academic student at level 3) Tower Hamlets Av = 662.3 England Av = 785.6	Ofsted grade	Impact rating
London Academy of Excellence	16-19 Free School Non faith Mixed	200 learners 99.9% of learners are aged 16-18 This is a small size college	No KS5 data	Not yet inspected by Ofsted	Moderate Closely located to ELAM and a small size institute offering places to a similar age group, there is a possibility that some places may be lost to ELAM. This institute however only targets those learners wanting to study academic routes, whereas ELAM targets learners wanting to study specific music and digital arts vocational subjects. Given this the long term viability is unlikely to be significantly affected.
Tower Hamlets College	General Further Education College Non faith Mixed	4276 learners 35.8% of learners are aged 16-18 This is a large size college	The average points score per academic student at level 3 in 2013 is 562.3. This is well below both the national and LA averages.	Satisfactory at 04/05/2012	Moderate Attainment is well below average and the Ofsted judgment is only satisfactory which may deter some learners, However nearly two thirds of the learners attending this institute are not within the 16-19 age group. This institute also provides a wide choice of both academic and vocational subjects but none in music and digital media, Therefore those learners only wanting to study these specialised subjects will be attracted to ELAM. The long-term viability therefore is unlikely to be significantly affected.

<p>The Brooke House Sixth Form College</p>	<p>Sixth Form College Non faith Mixed</p>	<p>1353 learners 99.9% of learners are aged 16-18 This is a medium size college</p>	<p>The average points score per academic student at level 3 in 2013 is 670.3. This is below the national average but higher than the LA average.</p>	<p>Good at 22/03/2013</p>	<p>Moderate Attainment is above the LA average and the Ofsted judgment is good which is likely to attract learners and although offering places to a similar age group to ELAM, this institute targets those learners wanting to study academic routes and A levels, whereas ELAM targets learners wanting to study music and digital media specialised subjects. The long term viability therefore is unlikely to be significantly affected.</p>
<p>Newham Sixth Form College</p>	<p>Sixth Form College Non faith Mixed</p>	<p>2586 learners 99.9% of learners are aged 16-18 This is a large size college</p>	<p>The average points score per academic student at level 3 in 2013 is 636.9. This is well below both the national and LA averages.</p>	<p>Good at 06/02/2009</p>	<p>Moderate Although attainment is below average the Ofsted rating is good which is likely to continue to attract learners. The college does offer both academic and vocational course, some of these are in music, including technology and performance. Enrolment on these courses may therefore be affected by ELAM opening, however this institute is offering a wide selection of different subjects therefore the long term viability is unlikely to be significantly affected.</p>
<p>Hackney Community College</p>	<p>General Further Education College Non faith Mixed</p>	<p>3129 learners 35.7% of learners are aged 16-18 This is a large size college</p>	<p>The average points score per academic student at level 3 in 2013 is 573.4. This is well below both the national and LA averages.</p>	<p>Good at 25/05/2010</p>	<p>Minimal Although attainment is below average the Ofsted judgment is good which is likely to continue to attract learners. This is a large institute and almost two thirds of learners attending are not within the 16-19 age group, (whereas ELAM is for 16-19 only), the long term viability is therefore unlikely to be significantly affected.</p>
<p>Leyton Sixth Form College</p>	<p>Sixth Form College Non faith Mixed</p>	<p>1879 learners 99.9% of learners are aged 16-18 This is a medium size college</p>	<p>The average points score per academic student at level 3 in 2013 is 676.1. This is below the national average but higher than</p>	<p>Good at 17/01/2013</p>	<p>Moderate Attainment is above the LA average and the Ofsted judgment is Good which is likely to continue to attract learners. The college does offer both academic and vocational</p>

			the LA average		courses, some of these are in music, including technology and performance. Enrolment on these courses may therefore be affected by ELAM opening; however this institute is offering a wide selection of different subjects therefore the long term viability is unlikely to be affected by ELAM opening.
Stem Academy	16-19 Free School Non faith Mixed	New school just opened in 2013 no data on numbers	No KS5 data	Not yet inspected by Ofsted	Moderate As this is a new 16-19 free school, which only opened in 2013 there is insufficient data to predict the impact on viability. The free school does offer both academic and vocational course, some of these are in music, including technology, sound engineering and performance. Enrolment on these courses may therefore be affected by ELAM opening, however this institute is offering a wide selection of different subjects therefore the long term viability is unlikely to be significantly affected by ELAM opening.
Newham College of Further Education	General Further Education College Non faith Mixed	7875 learners 23.5% of learners are aged 16-18 This is a large size college	No KS5 data	Good at 01/02/2013	Minimal There is no attainment data although the Ofsted judgment is good which may continue to attract learners to attending. Also given that almost three quarters of learners attending this institute are not within the 16-18 age group (whereas ELAM is for 16-19 only), the long term viability is unlikely to be significantly affected by ELAM opening.
Waltham Forest College	General Further Education College Non faith	5162 learners 25.6% of learners are aged 16-18 This is a large size college	No KS5 data	Requires Improvement at 17/05/2013	Minimal There is no attainment data and the Ofsted judgment has suggested that this institute requires Improvement which may deter some learners from attending but given

	Mixed				that almost three quarters of learners attending this institute are not within the 16-18 age group (ELAM is for 16-19 only), the long term viability is unlikely to be affected.
The College of Haringey, Enfield and North East London	General Further Education College Non faith Mixed	8614 learners 24.8% of learners are aged 16-18 This is a large size college	No KS5 data	Satisfactory at 21/01/2011	Minimal There is no attainment data and the Ofsted judgment is only satisfactory which may deter some learners but given that just over three quarters of learners attending this institute are not within the 16-18 age group (ELAM is for 16-19 only), the long term viability is unlikely to be affected.
Impact on secondary or all through schools with sixth forms					
Central Foundation Girls School	11-18 age range Voluntary Aided School Non-faith Girls	1406 places available. Overall no surplus places.	The average points score per academic student at level 3 in 2013 is 770.6. This is slightly below the national average but higher than the LA average.	Good at 24/11/11	Minimal This school's sixth form pupil take-up may be affected by opening ELAM, however given that the sixth form is quite large with 276 places available with no surplus places and with A level attainment higher than the LA average; it is unlikely that the long term viability will be significantly affected.
East London Science School	11-18 age range Free School Non-faith Mixed	1406 places available. Overall surplus of 23 places (2.2% of total school capacity).	No KS5 data only opened in 2013	Not yet inspected by Ofsted	Moderate This is a new free school which opened in 2013 and is not admitting pupils to the sixth form until 2015-16 when they move to a permanent site. We therefore feel it is too early to anticipate with a degree of accuracy the impact ELAM may have on future pupil take-up.
Cardinal Pole Roman Catholic School	11-18 age range Voluntary Aided School	1033 places available. Overall surplus of 23 places (2.2% of total school capacity).	The average points score per academic student at level 3 in 2013 is 802.4. This is above both the national and LA average.	Good at 01/02/13	Minimal This school's sixth form pupil take-up may be affected by opening ELAM however given that the sixth form has 140 places and A level attainment is higher than both

	Roman Catholic Mixed				the LA and national average it is unlikely that the long term viability will be significantly affected.
Chobham Academy	3-18 age range Academy Sponsor Led Non-faith Mixed	No capacity data.	No KS5 data only opened in 2013.	Not yet inspected by Ofsted	Moderate This is a new sponsor led academy which only opened in 2013 therefore there is no attainment data or Ofsted inspection judgement. The school however has 210 sixth form places and was oversubscribed when opened. We therefore do not expect the long term viability to be significantly affected.
School21	4-18 age range Free Schools Non-faith Mixed	1200 places available. Only opened in 2012 therefore still filling cohorts.	No KS5 data only opened in 2012.	Not yet inspected by Ofsted	Moderate This is a new free school which opened in 2012 and is still filling cohorts year on year. The school will not be admitting pupils to the sixth form until 2017-18 therefore it is too early to anticipate with any degree of accuracy the impact ELAM may have on future pupil take-up.
St Paul's Way Trust School	11-18 age range Community School Non-faith Mixed	1200 places available. Overall surplus of 284 places (23.7% of total school capacity).	The average points score per academic student at level 3 in 2013 is 727 This is above the LA average but lower than the national average.	Outstanding at 09/05/13	Moderate The sixth form at this school is small with only 43 pupils on roll and whilst the financial viability of the Academy overall may not be affected, it could affect the viability of the sixth form provision given the small numbers attending.
Morpeth School	11-18 age range Foundation School Non-faith Mixed	1265 places available. Overall no surplus places.	The average points score per academic student at level 3 in 2013 is 633.1 This is below both the LA and national average.	Outstanding at 09/05/13	Minimal This school's sixth form pupil take-up may be affected by opening ELAM, however given that the school has received an Ofsted outstanding judgement and the sixth form is quite large at 270 places with no surplus places, it is unlikely that the long term viability will significantly affected

<p>The City Academy Hackney</p>	<p>11-19 age range. Academy Sponsor lead Non-faith Mixed</p>	<p>1140 places available. Overall surplus of 412 places (36.1% of total school capacity).</p>	<p>No KS5 data only opened in 2009</p>	<p>Outstanding at 21/01/12</p>	<p>Moderate This is a new sponsor led academy which opened in 2009 and has not yet any A level attainment to report and is also reflecting a high proportion of surplus places across the school as it builds up its cohorts. The school received an outstanding Ofsted inspection which may encourage learners to stay on at sixth form. Therefore whilst the financial viability of the academy overall is unlikely to be affected, it could affect the viability of sixth form provision at this academy.</p>
<p>The Urawick School – Church of England Secondary School</p>	<p>11-19 age range Voluntary Aided Church of England Mixed</p>	<p>860 places available. Overall surplus of 94 places (10.9% of total school capacity).</p>	<p>No KS5 available</p>	<p>Good at 21/03/13</p>	<p>Moderate The sixth form at this school is small with only 39 on roll. Whilst the financial viability of the school overall will not be affected, it could affect the viability of sixth form provision at this school given the low number of pupils attending.</p>
