Executive summary

EXEMPTION FROM THE REQUIREMENT FOR A LICENCE TO GENERATE ELECTRICITY: PROPOSAL TO MAKE THE ELECTRICITY (EXEMPTION FROM THE REQUIREMENT FOR A GENERATION LICENCE) (FERRYBRIDGE MFE) ORDER 2014

The Secretary of State, pursuant to section 5(2) and (3) of the Electricity Act 1989 (“the Act”) as amended by the Utilities Act 2000, hereby gives notice that he proposes to make an order under section 5(1) of the Act granting exemption from the requirement to hold a generation licence under section 4(1)(a) of the Act to:

Ferrybridge MFE Limited in respect of the Ferrybridge Multifuel Power Station (“Ferrybridge Multifuel”), an 88 MW plant located within the boundary of the existing Ferrybridge power station, in Knottingley, West Yorkshire. Ferrybridge Multifuel is owned by Multifuel Energy Limited, a joint venture between SSE Generation Limited and WTI/EFW Holdings Limited.

The Secretary of State’s reasons for making such an order on the terms proposed are set out in the attached document entitled “Exemption from the Requirement for a Licence to Generate Electricity: Proposal to Make “The Electricity (Exemption from the Requirement for a Generation Licence) (Ferrybridge MFE) (England and Wales) Order 2014”. The terms of the proposed draft order is set out in the appendix to the document.

Representations may be made with respect to the proposals in the document by 1st December 2014 to:-

Chris Chown, Department of Energy and Climate Change, Fourth Floor, 3 Whitehall Place, London SW1A 2HD (telephone: 0300 068 6085; e-mail: chris.chown@decc.gsi.gov.uk)

EXEMPTION FROM THE REQUIREMENT FOR A LICENCE TO GENERATE ELECTRICITY: PROPOSAL TO MAKE THE ELECTRICITY (EXEMPTION FROM THE REQUIREMENT FOR A GENERATION LICENCE) (FERRYBRIDGE MFE) ORDER 2014

INTRODUCTION

1. The Secretary of State proposes to make an order (“the Order”) under section 5(1) of the Electricity Act 1989 (“the Electricity Act”), as amended by the Utilities Act 2000, granting exemption from the requirement to hold a generation licence to:
 - Ferrybridge MFE Limited in respect of the Ferrybridge Multifuel Power Station, situated in Knottingley, West Yorkshire.
2. It is intended that this generating station will become fully operational in Winter 2014.
3. The Secretary of State is proposing to make the Order subject to the conditions specified in the attached draft Order and in paragraph 9 below, and to the views of consultees. This document explains why the Secretary of State is proposing to make such an Order.

LEGISLATIVE BACKGROUND

4. Section 4(1)(a) of the Electricity Act makes it an offence for a person to generate electricity for the purpose of giving a supply to any premises or enabling a supply to be so given unless he is authorised to do so by a licence or exemption. Section 5(1) of the Electricity Act provides that the Secretary of State may, by order, grant exemption from section 4(1)(a). Section 5(2) of the Electricity Act sets out the procedure for making such an order.
5. On 1 October 2001, the Electricity (Class Exemptions from the Requirement for a Licence) Order 2001 (“the Class Exemptions Order”) came into force. Among other things, the Class Exemptions Order continued the ‘Class C exemption’ previously comprised in the Electricity (Class Exemptions from the Requirement for a Licence) (England and Wales) Order 1997 for persons operating generating stations with existing energised connections on 30 September 2000 that did not provide more than 100 MW of power to the total system (Schedule 2, Class C of the Class Exemptions Order).

POLICY BACKGROUND

6. The Class C exemption does not exempt those who propose to operate plants which did not have existing energised connections on 30 September 2000 – even where those plants export no more than 100 MW to the total system. The policy reason for this was to maintain the exemption for existing plant of less than 100 MW (under the 1997 Order) but not to extend this to all such future plants connected after 30 September 2000, to ensure that future exemptions were controlled according to existing network regulation needs. This class exemption has not since been updated. Consequently, generators with new plant similar in size to that set out in the Class C exemption which were not connected to

the total system on 30 September 2000 must apply to the Secretary of State for individual exemption pursuant to section 5 of the Electricity Act or obtain a licence.

7. In determining whether such applications have merit, DECC's starting assumption is that all generation of electricity should be licensed, unless applicants can demonstrate that exemption does not pose a threat to the safe and secure operation of the electricity system or the interests of consumers. In such cases, DECC considers that expecting applicants to meet the costs and obligations of a licence is disproportionate and that individual exemption should be given.

REASON FOR PROPOSED ORDER

8. Taking account of the level of the electrical power that could be exported to the total system in England and Wales by the Ferrybridge Multifuel Power Station, the Secretary of State has provisionally concluded that the connection of this plant to the system would not adversely affect network operation and that it would not be appropriate to require Ferrybridge MFE Limited to obtain an electricity generation licence in respect of the station. He is therefore proposing to make the exemption.

CONDITIONS

9. The conditions proposed to be included in respect of any such exemption are that:
 - the generating station is connected to the total system in England and Wales;
 - that except in circumstances outside the reasonable control of the operator, the generating station is not normally capable of exporting more electrical power than 100 megawatts to the total system; and
 - that Ferrybridge MFE Limited does not hold a generation licence under section 6(1)(a) of the Electricity Act.

REPRESENTATIONS AND TIMETABLE

10. Representations on the issues raised in this document and the proposal are invited by 1st December 2014 and should be made to: Chris Chown, Energy Market Framework, Department of Energy and Climate Change, Fourth Floor, 3 Whitehall Place, London SW1A 2HD (telephone: 0300 068 6085; e-mail: chris.chown@decc.gsi.gov.uk)

REGULATORY IMPACT ASSESSMENT

11. The Government produced a Regulatory Impact Assessment in respect of the Class Exemptions Order in October 2001. The assessment may be viewed at:

http://www.legislation.gov.uk/uksi/2004/1776/pdfs/uksiem_20041776_en.pdf

or obtained from: Chris Chown, Department of Energy and Climate Change, Fourth Floor, 3 Whitehall Place, London SW1A 2HD (telephone: 0300 068 6085; e-mail: chris.chown@decc.gsi.gov.uk).

 STATUTORY INSTRUMENTS

2014 No. 0000

ELECTRICITY, ENGLAND AND WALES

The Electricity (Exemption from the Requirement for a Generation Licence) (Ferrybridge MFE) (England and Wales) Order 2014

<i>Made</i> - - - -	*** 2014
<i>Laid before Parliament</i>	*** 2014
<i>Coming into force</i> - -	*** 2014

The Secretary of State makes the following Order in exercise of the powers conferred by section 5 of the Electricity Act 1989(1).

The Secretary of State has given notice of the proposal to make this Order in accordance with section 5(2) and (3) of that Act [*and has considered the representations made in relation to the proposal.*]. *No representations in respect of the proposal have been made.*

Citation and commencement

This Order may be cited as the Electricity (Exemption from the Requirement for a Generation Licence) (Ferrybridge MFE) (England and Wales) Order 2014 and comes into force on [].

Interpretation

In this Order—

“the Act” means the Electricity Act 1989;

“the company” means Ferrybridge MFE Limited, a company registered in England and Wales with company number 07712297;

“the generating station” means the Ferrybridge multifuel power station, an electricity generating station whose entrance is located at Ordnance Survey map reference SE473248, in Knottingley, West Yorkshire;

“the total system in England and Wales” means—

- (a) the transmission system of the holder of a licence under section 6(1)(b) of the Act; and
- (b) all distribution systems,

in each case, to the extent located in England and Wales.

Exemption from section 4(1)(a) of the Act

—a) Subject to paragraph (2), the company is granted exemption from section 4(1)(a) of the Act (prohibition of unlicensed generation of electricity for supply) in respect of the generating station.

The exemption granted in paragraph (1) is subject to compliance with the following conditions—

that the generating station is connected to the total system in England and Wales;

that, except in circumstances outside the reasonable control of the company, the generating station does not export more than 100 megawatts of electrical power to the total system in England and Wales; and

(¹) 1989 c.29. Section 5 was substituted by section 29 of the Utilities Act 2000 (c.27).

that the company does not hold a licence under section 6(1)(a) of the Act.

	<i>Name</i>
	Minister of State
Date 2014	Department of Energy and Climate Change

EXPLANATORY NOTE

(This note is not part of the Order)

This Order grants exemption from the requirements of section 4(1)(a) of the Electricity Act 1989 (which prohibits the generation of electricity for supply to any premises without a licence) to Ferrybridge MFE Limited in relation to the Ferrybridge multifuel power plant, an electricity generating station whose entrance is located at Ordnance Survey map reference SE473248, in Knottingley, West Yorkshire.

A regulatory impact assessment in respect of exemptions from the requirements of section 4(1)(a) of the Electricity Act 1989 was prepared in 2001 and can be obtained from the Department of Energy and Climate Change, Energy Markets Unit, 4th Floor, 3 Whitehall Place, London, SW1A 2AW. Copies have been placed in the libraries of both Houses of Parliament.
