

PRIOR EXTRACTION OPPORTUNITIES - OCTOBER 2014

The Coal Authority is a statutory consultee for approximately 50,000 Planning Applications within the coalfields of England, Scotland and Wales. This means that the Planning and Local Authority Liaison Department at The Coal Authority has to provide the Local Planning Authority as decision maker with specific comments on new development proposals before Planning Permission is granted.

The Coal Authority sometimes recommends that the shallow coal resources are removed as part of the ground works of the proposed development. This is to avoid the unnecessary sterilisation of coal resources and to ensure the site is safe and stable.

The Planning and Local Authority Liaison Department has recommended prior extraction in the following Planning Applications:
