---	------------------------------	---------------------------------	-------------

AUTHORIZED AMENDMENT

RA1200 has been reworked to provide better regulation and to closer align it with the ICAO SMS framework however it was necessary to retain some additional sub headings to satisfy certain bespoke military criteria. The MAS chapters 1 and 2 have been heavily ammended in order to reflect the changes in RA1200 and to provide the regulated community better guidance material. Chapter 3 has had some slight ammendments.
