

Dear Sirs,

Response to the "Utilisation of the UK's Existing Airport Capacity Discussion Paper"

We believe that it is imperative that due attention is paid to the following key factors.

1. The Economic Development of the UK in its entirety and the removal of impediments to free flow of travellers and goods through congestion or a lack of service.
2. The Demands of the market, consisting of:
 - Business Travellers
 - Freight Shipments
 - Exporters
 - Potential Foreign Direct Investment
 - Supply Chain Connectivity
 - Inbound Leisure traffic
 - Outbound leisure traffic
3. The adverse social and environmental consequences of the absence of regional services, both on the regions and on the natural catchment area of the South East Airports.

Yours Faithfully

Colin Daniels
Chief Executive
