

Coal Outcrop Metadata

Description

Keywords

Theme: Coal Outcrops, Coal, Mining, Data, Mining Report, Ground Stability

Description

Abstract

Coal outcrops illustrate a location where a workable coal seam is present at or close to the surface.

Purpose

Mining and geographical data held on the National Coal Mining Database.

Supplementary Information

This layer identifies where an underground coal seam reaches rockhead, indicating coal that may have been worked at some time in the past. Whilst this dataset highlights areas of probable underground workings at shallow depth, it may also include areas where the un-viable seams of coal remain. This dataset contains a buffer of 50m on the dip side of the outcrops position as held by the Coal Authority.

The National Coal Mining Database, which is based on the records held at The Coal Authority offices in Mansfield, Nottinghamshire, is updated on a regular basis. This dataset has been extracted from this dynamic database on the date stated below and therefore represents a snapshot in time.

Status of the data

Extract of data from the National Coal Mining Database

Data update frequency: As needed

Time period for which the data is relevant

Date and time: 14/08/2014

Description: Dataset export from the National Coal Mining Database

Publication Information

Who created the data: The Coal Authority

Date and time: 26/09/2014

Data storage and access information

File name: CoalOutcrops

Type of data: vector digital data

Data processing environment: Microsoft Windows 7 Version 6.1 (Build 7601) Service Pack 1; ESRI ArcCatalog 10.0 (Build 2800)

Data processing environment: Microsoft Windows 7 Version 6.1 (Build 7601) Service Pack 1; ESRI ArcCatalog 10.0(Build 2800)

Accessing the data

Size of the data:

Data transfer size:

Coal Outcrop Metadata

Constraints on accessing and using the data

Access and use constraints: This data, service or application is provided free of charge under the terms and conditions of the Open Government Licence.

The full terms and conditions of the Open Government Licence can be viewed at:
