TO WHOM IT MAY CONCERN,

I operate a tenanted pub, my landlord being Admiral Taverns. I feel I need to write to you to express my concerns about having possible legislation that governs the relationship between me and my pub company, that could easily damage my business.

I am writing to you as I am concerned about the threat of new laws that will effect me greatly.

What will be the future of my pub and pub company if you introduce more red tape into the pub industry.

I have run the Pub for only but have been in the pub industry for some years now in the area.

my pub has benefited from a Investment which I couldn't have funded myself. I run the pub as my own with full support from my BDM Admiral Taverns have always been fair and supportive with me in running my business I do not understand why legislation is necessary. I am worried that extra red tape could result in reduction of support provided to me and increase my fixed costs.

provides a livelihood for me and the introduction of red tape could threaten this.

I do not understand why this review is necessary, my relationship with Admiral Taverns is nothing but positive and would not welcome any change. I hope you will take my views into account in your review as I see that the government taxes

enough.
