Subject: enterprise inns

To whom it may concern,

I am emailing with regard to Enterprise inns. I have an enterprise inns lease which i have had for [REDACTED] years now, i was managing the pub at the time when the lease became available, with the help of my RM at the time i was able to purchase the 15 year lease for a good price.

Over the past [REDACTED] years the business has had good and bad times and throughout that time enterprise have stepped in with immediate help in discount on barrels and reduction in rent, i believe they have a policy of helping all good retailers who are trying there best to grow there businesses.

Licenscees are too quick to lay blame at the pub companys door even if in some cases they could have done more to help themselves.

I have been sent on free courses, free open days and had endless point of sale kits off my area manager now- [REDACTED] has even give us a free childrens playpark from another pub which no longer wanted it.

Empower magazine also helps with useful tips and ideas plus free competitions -(which we have entered and won 3 times)

Enterprise, [REDACTED] and [REDACTED] have also played vital roles in helping me turn my vacant floor into letting rooms, without the help off enterprise that i and many others have received we would not be here today in our own pubs running our own businesses.

As all bad press is reported ,so should good press.

Thank you
