

Pub Consultation.

To whom it may concern,

I am a pub tenant with Admiral Taverns and run a country pub in . I feel my deal with Admiral to be fair & reasonable & am more than satisfied with the support I receive from them via my B.D.M.

I am therefore extremely concerned that the proposed legislation affecting the relationship between me and my pub company could severely damage the viability of my business.

Admiral has always treated me fairly & been supportive of me in running my pub. I don't understand why legislation is necessary & see no reason why it should be changed. If I am not happy with any aspect of my agreement, Admiral, believe would always be reasonable in sorting any problems out.

So, I believe ultimately this review seems to be a waste of tax-payers money and the Government already taxes my business enough. I hope you will take my views into account in your review. I will also be writing to my local M.P. to ask for his support.

Yours sincerely,
