“Re: Government Consultation Pub Companies and Tenants April 2013”

Dear Sir,

Taking on a pub can be a massive challenge – over 12 months ago, my wife and I decided to take that challenge and we became involved with the Punch Franchise tenancy program.

is our first pub and for someone relatively new to the industry, the franchise offer was an ideal opportunity to start our own business.

We took on a pub that had been refurbished and set up for us. We were advised on every aspect of the business from the range of drinks, pricing, licensing, and marketing to accountancy matters. We had to attend a foundation course covering practically everything you need to know when running a pub.

05/12/2013

As our initial funds were limited, we were offered an attractive scheme that would spread the initial investment as well as the costs of Fixtures and Fittings, EPOS System, etc. The on-going costs to run the pub are charged through our rent on a monthly basis.

Since the moment we took on the pub we have been provided with support and advice that was an invaluable help in becoming successful. The Punch Taverns have given us an opportunity of a lifetime.

Yours faithfully,
