To Whom It May Concern.

From:

I wish to submit my view for the above consultation.

I have been the licensee of the above Enterprise Inns public house for 12 months.

Enterprise Inns have been helpful at every stage of taking on the partnership. I was encouraged to research all aspects of the business including consequences of the type of agreement being considered. Once the taking over of the business was finalised further training was arranged which turned out to be useful despite my initial scepticism.

Support has been ongoing with decoration of the building and continued regular visits from my regional manager. This has eased my first year in business.

Overall enterprise inns have been helpful and supportive.

I was made well aware of the terms of the partnership-rent increase, discounts and product ties etc from the very start of my contact with Enterprise so have had no surprises

I hope this view is helpful
