Notes

1. Stopping pattern on Reading services replicates today
2. All stations retain current frequency
3. All stations have half hourly service to Heathrow (Acton doesn't at present)
3. Some journey opportunities lost: West Ealing to Hanwell and Hanwell to Southall - suggest this is de minimis
4. Pattern provides for two "Crossrail Express" trains every hour, calling at Old Oak Common, Heathrow Hub, Slough, Maidenhead and Reading only
5. Two freight paths an hour
6. Pattern repeats every 30 minutes
