

Programmes and Projects Definitions

Portfolio Code	Name	Portfolio Item Description
P0022/00	BT LSP (London)	BT LSP (London) has overall responsibility for upgrading NHS information technology to make it possible for hospitals, community services and mental health trusts to implement Electronic Patient Record as per the LSP contract with BT. This will enable the NHS to provide better, safer care for patients wherever and whenever they need it.
P0047/00	BT LSP (South)	Ensuring patients detailed clinical information is available at the point of care.
P0070/00	Calculating Quality Reporting Service (CQRS)	The Calculating Quality Reporting Service (CQRS) is used to calculate, report and approve quality outcome-related achievement and payments to GP practices and NHS England Area Teams. CQRS has replaced the QMAS system which was previously responsible for calculating and reporting Quality Outcomes Framework (QOF) payments. A replacement system (for QMAS) was required to provide increased flexibility to meet the policy outlined in the Health and Social Care Act.
P0306/00	Care.Data	The Care.Data programme, this initiative will ensure that there is more rounded information available to citizens, patients, clinicians, researchers and the people that plan health and care services. Our aim is to ensure that the best possible evidence is available to improve the quality of care for all.
P0004/00	Child Protection - Information Sharing	<p>The Child Protection - Information Sharing project will provide child protection information to unscheduled (emergency and urgent care) services in the NHS on the statutory position of children subject to a Child Protection Plan or Looked After Children on a Statutory Order. It is intended that the information will be fed from Children's Social Care systems and a solution will be developed that will enable unscheduled care setting systems within the NHS to view this information.</p> <p>NHS England fund HSCIC to deliver the CP-IS service through ministerial approved business cased signed off in Dec 12 and supports funding of the project through to April 2018. The project should be HSCIC cost neutral.</p>
P0031/00	CSC LSP Delivery Programme	LSP Delivery Programme: Increased patient safety and quality of healthcare and also greater clinical effectiveness and administration efficiency
P0246/00	Data Management Environment (DME) - Syndication Service Project	The vision of implementing a Data Management Environment (DME) is to set a strategic approach to data management within the IC. The DME will provide a standardised, secure method for storing, auditing, managing, assuring and governing data held by the NHS IC.
P0265/00	Data Service for Commissioners (DSfC)	The establishment of the additional infrastructure, systems, services foundation and staffing for the HSCIC to deliver the requirements of commissioners to enable a legal and effective delivery of data provision.
P0010/00	Defence Medical Services (DMS)	Support Defence Medical Services to deliver the fully operating capability of their Personnel Care Record System Programme (DMICP). This includes integrating with the services and systems of the NHS, provision of relevant SME, skills and programme resource. In this context NHS systems include patient registration, staff authentication and patient choice together with activity related management information.
P0012/00	Electronic Transmission of Prescriptions	<p>The Electronic Transmission of Prescriptions (ETP) programme is delivering the Electronic Prescription Service (EPS) to GP practices, community pharmacies and dispensing appliance contractors across England. EPS enables prescribers (such as a GP or practice nurse) to send prescriptions electronically to a dispenser (such as a pharmacy) of the patient's choice, and then onward transmission to the NHS Prescription Services to support reimbursement. This makes the prescribing and dispensing process more efficient and convenient for patients and staff.</p> <p>EPS is being delivered in two phases:</p> <ul style="list-style-type: none">• EPS Release 1 introduced the technical infrastructure to enable prescribers and dispensers to operate the EPS. EPS Release 1 was completed in 2008.• EPS Release 2 delivers enhanced functionality (such as electronic signatures and patient nomination of a preferred pharmacy) for users to gain tangible benefit from EPS. EPS Release 2 is currently being rolled out
P0301/00	Female Genital Mutilation Prevention – Data and Systems Business Case Development	<p>The objective of this document is to define and authorise the work package to produce a feasibility study on information collection and sharing by the NHS on Female Genital Mutilation (FGM).</p> <p>The work package will deliver an assessment of the feasibility of achieving the following objectives:</p> <ul style="list-style-type: none">- How can the NHS support the multi-agency objective of protecting and caring for those currently affected by, or at imminent risk of, FGM;- How can the NHS support the long term health education and health promotion components of a multi-agency strategy on the eradication of FGM <p>An assessment of feasibility will be formulated in a final document which will contain a study investigating multiple options for achieving the objective.</p> <p>The options will consider those requirements, risks and benefits relevant to the objectives, starting from a 'do nothing' state, to one which fully addresses the obligations on the NHS and health care professionals as outlined in the multi-agency practice guidelines on FGM.</p> <p>All the options together will identify a common set of requirements, against which each individual option will be assessed. Each option will also specify the estimated resources, in terms of time, cost and materials, required to realise the option.</p>
P0281/00	General Practice Extraction Service (GPES)	Primary Care Services

Programmes and Projects Definitions

P0014/00	GP2GP	To deliver the national implementation and roll-out of a computerised system to manage the transfer of patient records between GP practices when patients change their GP, covering electronic records transfers between GP practices.
P0017/00	GPSoC	The provision and delivery of GP Clinical IT systems in England.
P0208/00	GPSoC Replacement	To provide a contractual vehicle for the supply and development of GP clinical IT systems for all Practices in England, following expiry of the extended GPSoC call off agreements in March 2014.
P0207/00	Health & Justice Information Services	Health and Justice Information Services (HJIS) focuses on the future information services required to support the statutory responsibilities of NHS England (Health & Justice) in the direct provision and commissioning of healthcare for all places of detention, and Sexual Assault Referral Centres, in England.
P0190/00	Health & Social Care Network (HSCN)	Develop and deliver options appraisals with supporting impact assessments, leading to an appropriate business case for the procurement of a wide area network to meet the information needs of health, public health and social care through utilising in full or in part the Public Sector Network (PSN) framework, models and approaches. The PSNH project will deliver a Public Services Network for Health, which will be aligned and accredited to PSN standards
P0192/00	Information Service for Parents	A service through which parents can have their questions about pregnancy and caring for babies answered through bite-size video clips, now referred to as Digital Babies.
P0055/00	Maternity and Childrens Datasets	To collect and report on data for maternity, child health and adolescent mental health services.
P0024/00	N3	N3 is the National Network for the NHS.It provides reliable, supporting IT infrastructure, world class Internet Protocol (IP) networking services and sufficient, secure connectivity and broadband capacity to meet current and future NHS IT needs.
P0294/00	National Tariff System (NTS)	The National Tariff System programme will provide national solutions that implement the national payment system as defined by NHS England and Monitor. This will be achieved via implementation of a national system and enabling products which initially provide core PbR functionality for hospitals providing NHS care. Over the longer term it will deliver emerging national policy requirements and meet additional business requirements of users.
P0026/00	NHS Choices	NHS Choices (www.nhs.uk) acts as the digital gateway and public front door to the NHS, transforming the delivery of health and social care to one that is patient-centred, personalised and accessible to all.
P0329/00	NHS eProcurement Solution	An eProcurement Programme to deliver the National NHS eProcurement Infrastructure for the Department of Health's NHS eProcurement Strategy. The Department of Health will provide the required funding. This is expected to be transferred via the GIA (Grant in Aid) budget.
P0238/00	NHS e-Referral Service Programme	The NHS e-Referral Service Programme will deliver an open, modern, electronic referral service, improving patient outcomes and delivering paperless referrals by 2015.
P0028/00	NHS Number	NHS Number Operational Information Standards for 16 Care Settings, including Social Care. Contractual and guidance changes to link correct use of NHS Number to payment. Includes establishing a fundamental standard and monitoring use of the NHS Number.
P0030/00	NHSmail	NHSmail provides the NHS with a secure email and calendar service hosting close to 950,000 registered users, with 660,000 of those regularly accessing the service. The existing contract (with Vodafone) is due to expire on 30th June 2014.
P0196/00	NHSmail2	The NHSmail 2 Project is to replace the existing NHSmail service. The project is tasked with procuring a new service and transitioning the users and services onto this service from the current Vodafone platform.
P0367/00	Nursing Technology Fund	To enable the delivery of modern nursing care and practice, and release 'time to care' by advancing routine use of digital technology in the delivery of healthcare, improving quality, efficiency and effectiveness for patients, increasing self- management and patient voice, choice and control in their health and care.
P0037/00	Offender Health IT	To deploy a clinical system to all prisons in the South and London so that they can link up with existing deployment plans in NME to form a national network. The system chosen TPP SystmOne, provides a single patient record which is allowing patients information to be transferred when they are moved around the prison estate. Thus providing continuity of care and improving health care for prisoners as well as working environment for staff.
P0033/00	Picture Archiving and Communications System	Development and deployment of the PACS (Picture Archiving And Communication System). Overarching programme to manage the PACS sub-programmes.
P0311/00	Professional and Clinical Information Standards Service	Provides clinical and technical experts who support implementations, facilitate development of clinical standards and generate products to enable information standards adoption at scale by Health and Care organisations.
P0368/00	Safer Hospitals Safer Wards Technology Fund	To support local NHS Trusts and Foundation Trusts to move more rapidly from paper to paper light to paper less processes and adopt increasing levels of digitisation in clinical business processes and to adopt ePrescribing more widely and comprehensively.
P0181/00	South Acute Programme	21 NHS organisations are participating in the South Acute Programme working as six collaborative groups. Trusts within each collaborative are procuring common Commercial off the Shelf (COTS) clinical systems. These clinical systems are being selected to meet each groups local requirements and include full integrated Electronic Health Records, Clinical Portal, Electronic Document Management (EDM) and ePrescribing solutions. It is anticipated that all of the groups will have signed contracts by the end of May 2015.
P0182/00	South Ambulance Programme	To procure clinical solutions for the Southern Ambulance Trusts which do not currently have these solutions under the BT LSP solution.
P0183/00	South Community and Child Health Programme	To procure clinical solutions for the Southern Community and Child Health Trusts which do not currently have these solutions under the BT LSP solution.
P0049/00	Spine	To provide the national Spine infrastructure to support national systems such as Demographics, EPS, PSIS. The Spine contract provides key components of the overall architecture for the NHS Care Record Service (CRS).
P0050/00	Spine 2	The provision of the existing Spine Services to be re-procured using the new Government ICT strategy framework, using internal and 3rd party resources.
P0051/00	Summary Care Record	Delivery of the SCR which supports urgent and emergency care settings, providing information to authorised health care professionals to support care where no information is currently held about a patient, for example in out-of-hours settings, emergency departments, treating temporary residents and emergency admissions to secondary care.
P0042/00	SUS Live Service	The single source of comprehensive data to enable a range of reporting and analysis. Major upgrades to Secondary Uses Service to support annual Payment by Results enhancements starting with the implementation of HRG v4 in March 2009.
P0278/00	SUS Support Services	SUS Support Services
P0335/00	SUS Transition	Responsible for the delivery of interim tactical solutions to ensure business continuity from the end of the BT SUS contract. This will include system data and user transition.
