

	School Name	Distance from Free School in miles	School Type	Capacity	Attainment in 2011/12 (5*A-C)	Ofsted Grade	Impact Rating
1.	East Barnet School	1.5	Academy Converters	1,406	62%	Outstanding	Moderate. SAAGOS is unlikely to affect the long term financial viability of East Barnet School as it is an outstanding school. However East Barnet School is located close to the proposed Free School which may result in surplus places but we don't anticipate significant numbers relocating.
2.	Jewish Community Secondary School	1.6	Voluntary Aided School	1,274	No data	This school opened in September 2010. It has not yet had a full Ofsted inspection.	Moderate. SAAGOS is likely to have a moderate impact on the long term financial viability of this school because of the school's low achievement level. Also the travel distance from the proposed Free School to this school is 2.5 miles – even though this is at the far end of the average travel distance pupils undertake, it is still expected that the school will lose pupils to the Free School; however parents choosing a Jewish designated school for their children may be less likely to opt for a Greek designated school than other groups of parents.
3.	Chace Community School	2.4	Community School	1,365	53%	Good	Moderate. SAAGOS will have a moderate impact on this school as it is located close by. However this may be offset by the fact that the school is a high achieving school and parents may be, at least in the short term, reluctant to move their children to the Free School.

4.	Southgate School	1.0	Community School	1,531	68%	Outstanding	Minimal. SAAGOS will have minimal impact on the long term financial viability of this school because it is an outstanding school.
5.	Highlands School	1.3	Community School	1,462	76%	Outstanding	Minimal. SAAGOS will have minimal impact on the long term financial viability of this school because it is an outstanding school.
6.	Ashmole Academy	2.1	Academy Converter	1,452	78%	Outstanding	Minimal. SAAGOS will have minimal impact on the long term financial viability of this school because it was an outstanding school before becoming an academy converter.
7.	Enfield County School	2.1	Community School	1,167	72%	Outstanding	Minimal. SAAGOS will have minimal impact on the long term financial viability of the school because it is an outstanding school.
8.	Enfield Grammar School	2.2	Academy Converter	1,111	70%	Good	Minimal. SAAGOS will have minimal impact on the long term financial viability of the school because this school is a good school and rapidly improving.

Free School impact on colleges

College name	Distance from free school (miles)	College type	Capacity	Attainment in 2011/12	Ofsted grade	Impact rating
Barnet and Southgate College	3.0	Further Education college	6037 learners 40% of learners are aged 16-18 This is a large college	Well below average The average points score at level 3 in 2012 is 463.7	Good	Minimal The Free School is unlikely to affect the long term financial viability of the college
Capel Manor College	3.5	Further Education college	1100 learners Less than 50% of learners aged 16-18 This is a medium-sized college	Well below average The average points score at level 3 in 2012 is 540.7	Good	Moderate The Free School may affect the long term financial viability of the college
Woodhouse College	3.7	Sixth form college	1189 learners 100% of learners are aged 16-18 This is a medium-sized college	Well above average The average points score at level 3 in 2012 is 814.6	Outstanding	Minimal The Free School is unlikely to affect the long term financial viability of the college
Haringey Sixth Form Centre	4.5	Sixth Form School	1004 learners 100% of learners are aged 16-18 This is a medium-sized college	Below average The average points score at level 3 in 2012 is 621.6	Satisfactory	Moderate The Free School may affect the long term financial viability of the college

Primary Schools within 2 miles

	School Name	School Type	Capacity	Attainment in 2011/12 (KS2)	Ofsted Grade
1.	Beit Shvidler Primary School	Voluntary Aided School	178	NA	Good
2.	Canon Barnett Primary School	Community School	274	86%	Good
3.	Christ Church Primary School	Voluntary Aided School	245	100%	Good
4.	Church Hill School	Community School	224	89%	Good
5.	Cromer Road Primary School	Community School	397	84%	Good
6.	Danegrove Primary School	Community School	652	90%	Good
7.	Foulds School	Community School	314	91%	Good
8.	Grasvenor Avenue Infant School	Community School	83	No KS2 data available for this school	Good
9.	Hadley Wood Primary School	Community School	219	97%	Outstanding
10.	Livingstone Primary and Nursery School	Community School	236	83%	Satisfactory
11.	Monken Hadley CofE Primary School	Voluntary Aided School	150	65%	Good
12.	St Catherine's RC School	Voluntary Aided School	417	98%	Outstanding
13.	St Mary's CofE Primary School, East Barnet	Voluntary Aided School	208	87%	Outstanding
14.	Trent CofE Primary School	Voluntary Aided School	206	93%	Good
15.	Underhill Infant School	Community School	200	No KS2 data available for this school	Good
16.	Underhill Junior School	Community School	236	60%	Good
17.	Whitings Hill Primary School	Community School	422	88	Outstanding

S10 Consultation

The S10 consultation was adequate in registering the views of the local community whether on-line, in person or by post. The consultation ran for six weeks and concluded on 31st May 2013. Despite widespread distribution to interested parties and stakeholders, the number of responses received was relatively low. Most parents with children attending the school did not respond, despite parents active engagement with the school and principal designate.

On the primary question of should the Trust enter into a Funding Agreement with the Secretary of State, there was an overwhelmingly positive response from respondents, with 36 out of 43 (84%) responses content for the Trustees to enter into a Funding Agreement with the Secretary of State. 7 responses (16%) stated uncertain.

Conclusion

For the purposes of the impact assessment, we have included all primary and secondary schools within a two mile radius of the proposed site at North London Business Park, Barnet for St Andrew the Apostle Greek Orthodox School. This catchment area includes 17 primary schools and eight secondary schools. It is our view that the overall impact on the majority of the surrounding primary schools will be minimal as St Andrew the Apostle Greek Orthodox School is a secondary school.

The overall impact on the majority of the surrounding secondary schools will be moderate. It is expected that five secondary schools within this radius will feel a minimal impact with three feeling a moderate impact. The secondary schools (including Academies) in the borough already have surplus places so the arrival of St Andrew the Apostle Greek Orthodox School is likely to increase surplus places. The market effect of this is that pupils and parents will have more choice and variety of educational provision in their area. Also surrounding schools will be encouraged to strive to improve levels of attainment in order to remain financially viable. The increased competition resulting from St Andrew the Apostle Greek Orthodox School should help reduce inequality as all pupils irrespective of their background can attend improving schools as they compete to fill school places locally. Russell Education Trust Schools have a reputation for providing high quality curriculum provision and the proposed Free School will contribute to the expansion of existing high quality schools to meet basic need as well as the strong demand for new schools.
