AUTHORIZED AMENDMENT

Although it was originally intended to carry out a Major review to this RA, incorporating a change to the intent, this will now happen at a later time. Issue 3 is therefore submitted with fewer changes, as a Minor review.

In consequence, the wording of the 'Regulation' para is now unchanged relative to Issue 2, even though NPA 13/11 proposed changes to the wording.

There are changes to the Rationale, AMC and GM; these comprise improvements to clarity and the scope of the AMC is not significantly changed. The main changes are as follows:

- The responsible owner is now given in the AMC.
- The time limit for reporting recommendations is now given in AMC.
- Some sections of GM are broken out into sub-sections and new material is added concerning the suggested scope of an Ageing Aircraft Audit.
- There is minor reorganisation of GM paras.
- Some GM text has been reworded for clarity and all instances of 'must' have been removed.
