

Plans for New Service Family Accommodation at Salisbury Plain

Introduction

We are seeking views on proposals to develop new Service Family Accommodation (more than 900 homes) and supporting facilities at Bulford, Larkhill and Ludgershall.

Public Consultation

Under the Army Basing Programme, 4,300 army personnel plus their families are relocating to the Salisbury Plain area.

Public exhibitions are planned to provide information on the emerging proposals to accommodate the additional Service families and give you the opportunity to review and comment on the plans ahead of planning applications being submitted to Wiltshire Council in the spring. The proposals are the product of extensive public consultation on wider plans for the area outlined in the Salisbury Plain Masterplan.

All comments will be collated within a Statement of Community Involvement for each development.
