

Community Mapping

Cuadrilla

Your views on our proposals

We're committed to ensuring communities are fully informed about our proposals and that residents have the chance to share their views with us. As part of this commitment we want to hear your views

on our proposed sites at Roseacre Wood and Preston New Road. In order for you to provide your feedback, we have created an online community map for each of the proposed sites.

About the map

The easy-to-use community map will allow you to categorise your comments, and pin them to the location that you feel most relevant. Whether it is suggestions, or areas where you would like to see improvement, you can let us know using the community map.

Get involved

To view the community map and to leave your feedback on the proposals visit www.cuadrillaresources.com/consultation. Once the map has loaded you will need to enter your unique PIN number, which can be located near your address details on the envelope.

Two easy steps to have your say

1. Begin by pinpointing the location for your comment on the map. You can do this by using the zoom or address search function.
2. Record your comments by choosing a category and adding a short description into the online form.

If you are unable to access the community map and wish to leave your feedback on the proposals, you can call one of our dedicated community advisors on our Freephone information line number 0800 170 1115, weekdays between 09.00-17.30. Alternatively you can email us at communitymap@arup.com
