

DFID's Annual Reports from 1998

“I asked for information because I do not have all the annual reports for the 1997 – 2007 period and wanted confirmation that what I have is correct. So to fill in the gaps, please could you look in the Annual reports for 1997, 1998, 2000, 2002, 2003 and 2005 using the ‘Map of DFID’s work around the world’ at the beginning (if there is one) and/or the annex of the operational or organisational chart at the end (usually Annex 8 or 9) which lists the DFID offices on an organogram. For 1997 and 1998 this shouldn’t be very difficult because there were only a few Development Divisions overseas. I have found 9 offices listed for 1999. As it should not be difficult to locate the annual reports, this should not take you more than a couple of hours to collate.

If the annual reports are available in electronic form, please send me the link so that I can extrapolate the information myself.”

You can find electronic versions of DFID’s Annual Reports from 1998 (DFID’s first Annual Report) to 2005 [here](#) in DFID’s archived website.
