Subject: Documents on the Armenian Massacres

Dear Historians

We recently met members from the Armenian community who are working on the commemorations around the centenary of the Armenian massacres in the UK.

We discussed the possibility of having UK government records/reports at the time of the massacres being used as part of the educational exhibitions they wish to hold in 2015. We said we would look in to it.

Can you give me a steer on how we might go about looking in to this proposal further please?

Kind Regards
