

Tooting Primary School – Impact Assessment

School name	School type	Capacity	% achieving expected level in English and maths at KS2 2010/11	Ofsted grade	Impact rating
Franciscan Primary School	3-11 Co-educational Community School	412 No surplus capacity in 2010/11. Marginally undersubscribed for entry in 2010/11.	Well above the national and borough average. 87%	Good	Minimal. This is the nearest school to the proposed Tooting Primary and is concerned that it may lose some families due to competition. However Franciscan Primary has no surplus, was judged to be a good school at its last Ofsted inspection in 2007 and produces well above average results.
St Boniface Roman Catholic Primary School	3-11 Co-educational Voluntary Aided School (Roman Catholic)	315 No surplus and oversubscribed for entry in 2010/11	Well above the national and borough average. 97%	Outstanding	Minimal. The Free School is unlikely to affect the long term viability of this school.
Sellincourt Primary School	3-11 Co-educational Community School	420 Small surplus capacity (2%) and marginally undersubscribed for entry in 2010/11.	Below the borough and national average. 71%	Good	Moderate. Poor results and proximity to the proposed Free School mean this school could be impacted. However the school is rated as Good by Ofsted and the anticipated rise in demand for primary school places in the Borough over the next period is extremely likely to cancel out any impact relatively quickly. Even taking into account the additional provision offered by Tooting Primary and a second primary Free School scheduled to open in the Borough in September 2013, London Borough of Wandsworth have estimated an anticipated rise in demand over and above the current provision of 3FE by 2013/14 and 6FE by 2016/17. The Free School is therefore unlikely to affect the long term viability of

					this school
Gatton (VA) Primary School	4-11 Co-educational Voluntary Aided School (Muslim)	420 No surplus capacity and fully subscribed at entry.	Well above the national and borough average. 87%	Good	Minimal. The Free School is unlikely to affect the long term viability of this school.
Hillbrook School	3-11 Co-educational Foundation School	353 No surplus capacity and fully subscribed at entry.	Above the national average – but below the borough average 76%	Good	Minimal. The Free School is unlikely to affect the long term viability of this school.
Furzedown Primary School	3-11 Co-educational Community School	405 No surplus capacity in 2010/11. Marginally undersubscribed for entry in 2010/11.	Above the national average – but below the borough average 75%	Satisfactory	Minimal. The Free School is unlikely to affect the long term viability of this school.
Links Primary School	3-11 Co-educational Community School	420 Slight surplus capacity (4%) but fully subscribed at entry in 2010/11	Above the national average – but just below the borough average 78%	Good	Minimal. The Free School is unlikely to affect the long term viability of this school.
Broadwater Primary School	3-11 Co-educational Community School	385 No surplus capacity and fully subscribed at entry.	Well above the national and borough average. 83%	Good	Minimal. The Free School is unlikely to affect the long term viability of this school.
St Anselm's Catholic Primary School	4-11 Co-educational Voluntary Aided School (Roman Catholic)	210 Slight surplus capacity (8%) but fully subscribed at entry in 2010/11	Well above the national and borough average. 100%	Outstanding	Minimal. The Free School is unlikely to affect the long term viability of this school.
Fircroft Primary School	3-11 Co-educational Community School	420 Slight surplus capacity (9%) and marginally undersubscribed for entry in	Above the national average – but below the borough average. 77%	Good	Minimal. The Free School is unlikely to affect the long term viability of this school.

		2010/11.			
Smallwood Primary School and Language Unit	3-11 Co-educational Primary Community School	244 17% surplus capacity in 2010/11 but very slightly oversubscribed at entry.	Well below the borough and national average. 45%	Satisfactory	Moderate. Extremely poor results, a high surplus and a satisfactory Ofsted rating could mean this school is impacted by the opening of Tooting Primary. However the Ofsted report demonstrates that the school is improving and the school has recently been permanently expanded by the London Borough of Wandsworth as part of their strategy to meet the unprecedented rise in demand for primary places they are experiencing. This is extremely likely to cancel out any impact relatively quickly. Even taking into account the additional provision offered by Tooting Primary and a second primary Free School scheduled to open in the Borough in September 2013, London Borough of Wandsworth have estimated an anticipated rise in demand over and above the current provision of 3FE by 2013/14 and 6FE by 2016/17. The Free School is therefore unlikely to affect the long term viability of this school
Penwortham Primary School	3-11 Co-educational Community School	420 Slight surplus capacity (5%) but fully subscribed at entry in 2010/11	Just above the national average – but just below the borough average. 75%	Satisfactory	Minimal. The Free School is unlikely to affect the long term viability of this school.
Singlegate Primary School	3-11 Co-educational Community School	210 No surplus capacity in 2010/11. Marginally undersubscribed for entry in 2010/11.	Well above the national and borough average. 97%	Outstanding	Minimal. The Free School is unlikely to affect the long term viability of this school.
Eardley School	3-11 Co-educational Foundation School	517 11% surplus capacity in 2010/11 and marginally undersubscribed for entry in 2010/11.	Well below the borough and national average. 68%	Good	Moderate. Extremely poor results and a high surplus could mean this school is impacted by the opening of Tooting Primary. However the school is rated as Good by Ofsted and the anticipated rise in demand for primary school places in the Borough over the next period is extremely likely to cancel

					out any impact relatively quickly. Even taking into account the additional provision offered by Tooting Primary and a second primary Free School scheduled to open in the Borough in September 2013, London Borough of Wandsworth have estimated an anticipated rise in demand over and above the current provision of 3FE by 2013/14 and 6FE by 2016/17. The Free School is therefore unlikely to affect the long term viability of this school
Garfield Primary School	3-11 Co-educational Community School	330 11% surplus capacity in 2010/11 and marginally undersubscribed for entry in 2010/11.	Well above the national average and only just below the borough average. 79%	Good	Minimal. The Free School is unlikely to affect the long term viability of this school.
