

Annex B: Impact Assessment (standard) – St Martin’s Academy, Chester (4-11 Primary)

School name	School type	Capacity	% achieving the expected level in English and maths at KS2 in 2011/12	Ofsted grade	Impact rating
Chester Blue Coat Church of England Primary School	3-11, Church of Eng, Voluntary Aided Primary School	420 places with a surplus of 20% of total school capacity and oversubscribed for entry in 2011/12	83% of pupils achieved the expected level at KS2 in English and maths. This is above the LA and national average	Good	<p>Minimal: This new school opened in 2011. The recent Ofsted report shows this to be a good school with very positive parental feedback and although it has 20% surplus overall, this is due to building up year by year as a new school. It is currently oversubscribed with no places available on entry and is a faith school, unlike the free school. KS2 results are also above both the LA and national average.</p> <p>Therefore the Free School is unlikely to affect the long term financial viability of the school</p>
Oldfield Primary School	4-11, Community, Non-Faith Primary School	210 places with a surplus of 3% of total school capacity and oversubscribed for entry in 2011/12	96% of pupils achieved the expected level at KS2 in English and maths which is well above the LA and national average	Good	<p>Minimal: Only a slight surplus overall and there are no places available at entry level, KS2 results are significantly higher than the LA and national average. Ofsted have rated the school as ‘good’ with outstanding features.</p> <p>Therefore the Free School is unlikely to affect the long term financial viability of the school</p>
St Werburgh's and St Columba's Catholic Primary School	5-11, Roman Catholic, Voluntary Aided Primary School	350 places with surplus of 7% of total school capacity and oversubscribed for entry in	74% of pupils achieved the expected level at KS2 in English and maths. This is below both the LA average but has increased	Good	<p>Minimal: KS results are lower than the national and LA average but this is an improving school, rated good by Ofsted, it has only a modest surplus and is oversubscribed at entry, and is a faith school, unlike the free school.</p>

		2011/12	compared to the previous 2 years		Therefore the Free School is unlikely to affect the long term financial viability of the school
Mill View Primary School	4-11, Community, Non-Faith Primary School	210 places with surplus of 1% of total school capacity and oversubscribed for entry in 2011/12	90% of pupils achieved the expected level at KS2 in English and maths which well above the LA and national average	Outstanding	Minimal: Only a very slight surplus overall and there are no places available at entry level. Very high KS2 results and Ofsted's rating was 'outstanding'. Therefore the Free School is unlikely to affect the long term financial viability of the school
Newton Primary School	4-11, Community, Non-Faith Primary School	418 places with surplus of 17% of total school capacity and oversubscribed for entry in 2011/12	87% of pupils achieved the expected level at KS2 in English and maths which is above the LA and national average and significantly higher than previous years	Satisfactory	Minimal: Whilst the last Ofsted inspection rated the school as only satisfactory, its KS2 results are higher than both the LA and national average, having increased significantly compared to previous years. In addition, although it has an overall surplus it is oversubscribed at entry. Therefore the Free School is unlikely to affect the long term financial viability of the school
Cherry Grove Primary School	3-11, Community, Non-Faith Primary School	256 places with surplus of 4% of total school capacity and oversubscribed for entry in 2011/12	85% of pupils achieved the expected level at KS2 in English and maths which is above both the LA and national average and higher on previous years	Satisfactory	Minimal: Whilst the last Ofsted inspection rated the school as only satisfactory, its KS2 results are higher than both the LA and national average. In addition, although it has an overall surplus it is oversubscribed at entry. Therefore the Free School is unlikely to affect the long term financial viability of the school
Hoole Church of England Primary School	4-11, CofE Voluntary Controlled Primary School	390 places with surplus of 12% of total school capacity and oversubscribed for entry in 2011/12	76% of pupils achieved the expected level at KS2 in English and maths. This below the LA and national average but has significantly increased compared to previous years	Good	Minimal: KS results are lower than the national and LA average but this is an improving school, rated good by Ofsted, it has only a modest surplus and is oversubscribed at entry, and is a faith school, unlike the free school. Therefore the Free School is unlikely to affect the long term financial viability of the school

Upton Westlea Primary School	3-11, Non-Faith, Community Primary School	157 places with surplus of 1% of total school capacity and oversubscribed for entry in 2011/12	95% of pupils achieved the expected level at KS2 in English and maths which is well above the LA and national average	Outstanding	<p>Minimal: Showing a very small surplus overall with no places available at entry. KS2 results are significantly higher than both the LA and national average and Ofsted's rating was 'outstanding'.</p> <p>The Free School is unlikely to affect the long term financial viability of the school.</p>
Boughton Heath Primary School	4-11, Non-Faith, Community Primary School	210 places with surplus of 0% of total school capacity and oversubscribed for entry in 2011/12	93% of pupils achieved the expected level at KS2 in English and maths, which is significantly above the LA and the national average	Outstanding	<p>Minimal: KS2 results are significantly higher than both the LA and national average and latest Ofsted rating is 'outstanding'. There is no surplus overall and the school is oversubscribed at entry.</p> <p>Therefore the Free School is unlikely to affect the long term financial viability of the school</p>
Upton Heath CofE Primary School	4-11, CofE Voluntary Controlled Primary School	420 places with surplus of 14% of total school capacity and oversubscribed for entry in 2011/12	88% of pupils achieved the expected level at KS2 in English and maths which is above the LA and national average	Good	<p>Minimal: Although the school has an overall surplus, it is oversubscribed at entry. KS2 results are above the LA and national average and have increased on previous years. The school is rated good by Ofsted.</p> <p>The Free School is unlikely to affect the long term financial viability of the school.</p>
